

Dairy for life

2020 by the numbers

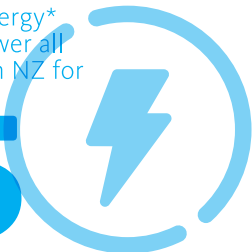

Helping our communities

through fires, floods, droughts and a pandemic

Saved enough energy* since 2003 to power all the households in NZ for

1.5 years

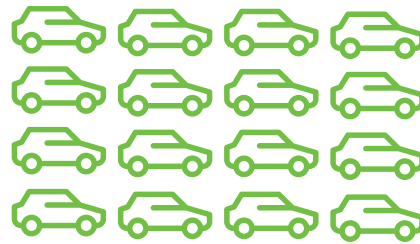

100%

of Fonterra farmers in NZ have access to farm-specific emissions profiles

2 million litres

of ethanol supplied for hand sanitiser during Covid-19

Switched to wood pellets at Te Awamutu. This will reduce our coal use by almost

10%

which is equivalent to taking **32,000** cars off the road each year

\$11 billion

contributed to regional NZ for 2019/20 season (through the milk price)

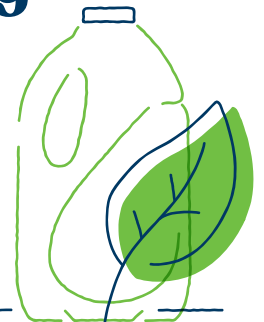

Helped farmers and small businesses

in New Zealand with cashflow by making payments earlier

Launched Simply Milk

New Zealand's first carbonzero™ milk and also developed the **Anchor plant based bottle**

Gender pay gap

reduced in countries where we have significant operations

Celebrating

10 years

of KickStart Breakfast
