

# Fonterra Engineering Graduate Programme

Rotating through New Zealand Manufacturing and Technical Excellence (6 month rotations)

Imagine tomorrow as a Te Mātāpuna Fonterra Engineering Graduate. Gaining hands-on experience, tackling real-world challenges, and developing a strong foundation for your future in engineering. Whether your interest lies in asset management, capital projects, operations, or technical engineering, our structured rotations will give you the opportunity to explore and grow.

Over 18–24 months, you'll work alongside experts, contribute to projects that shape the future of sustainable manufacturing, and build the skills needed to thrive in a dynamic environment. With mentorship, professional development, and a guaranteed first role, your career starts here. So, if you're ready to take the next step, imagine tomorrow, today.

## Who are we looking for?

- New Zealand citizens or New Zealand permanent residents
- People with a full driver's licence before the start of the programme (end – November)
- People with flexibility to travel across New Zealand
