Voting

Shareholders can vote on the matters to be considered at the Special Meeting **online** or by **post**. The instructions on how to vote in this manner can be found on the Special Meeting Voting Paper/Proxy Form.

electionz.com Limited has been authorised by the Board to receive, at the address specified on the freepost envelope included in the voting pack or otherwise set out on the Voting Paper, and count, all **online** and **postal** votes.

For the Special Meeting Shareholders can also vote by attending the meeting **in person or virtually**, or by appointing a **proxy or representative** (who can attend the meeting in person or online to vote on their behalf).

All online and postal votes must be received by the Returning Officer by **1.00pm on Tuesday, 7 December 2021**.

Voting Entitlements

A Shareholder's voting entitlement is based on their milksolids production. Shareholders will receive one vote for every 1,000 kilograms of milksolids supplied to Fonterra during the season ended **31 May 2021**.

If a Shareholder did not supply last season but now owns an existing farm that supplied last season, the voting entitlement will be based on that farm's supply last season or on the Board's estimate of milksolids production for this season. In the case of a dry farm conversion and farm amalgamations/ divisions, voting entitlement is based on one vote for every estimated 1,000 kilograms of milksolids to be supplied during the season ended **31 May 2022**. Milk supplied on Contract Supply and milk which is not backed by shares or counting vouchers is excluded from milksolids production when calculating voting entitlements.

In accordance with the Companies Act, the Board has fixed 5.00pm on **11 November 2021** as the date for determining voting entitlements of Shareholders for this meeting.

Accordingly, those persons who are, at 5.00pm on **11 November 2021**, registered as Shareholders will be entitled to vote at the Special Meeting in respect of the shares registered in their name on that date backed by production.

A Shareholder's voting entitlement for a farm is shown on the Voting Paper enclosed for that farm with this pack. If a Shareholder appoints a proxy or representative, the proxy or representative will exercise that Shareholder's voting entitlement as described above.

Proxies or Representatives

Instructions to appoint a proxy or representative are outlined in this Notice of Meeting and the Combined Special Meeting Voting/Proxy Paper. The Returning Officer will contact each proxy or representative ahead of the Special Meeting to provide them with the necessary information required to enable them to participate in and vote during the Special Meeting.

You may appoint the Chairman of the meeting or any director, or any other person, as your proxy (a proxy need not be a Shareholder). Where a Shareholder does not name a person as their proxy but otherwise completes the proxy form in full, or where a Shareholder's named proxy does not attend the meeting, the Chairman of the meeting will act as that Shareholder's proxy and will vote in accordance with that Shareholder's express direction.

The Chairman intends to vote any discretionary proxies, for which they have authority to vote, in favour of the resolutions.

All proxy or representative appointments must be received by the Returning Officer by **1.00pm on Tuesday, 7 December 2021**.

Questions

Shareholders will be able to ask questions in person or, for those attending online, via the online platform during the Special Meeting. We encourage Shareholders to submit questions as early as possible to ensure that as many questions as possible are received and addressed at the appropriate time during the meeting.

Votes Required and Quorum

The special resolution will be passed if approved by a majority of 75% or more of the votes of those Shareholders entitled to vote and voting on the resolution.

The quorum for the meeting is present if not fewer than 50 Shareholders have cast postal votes (including by electronic means) or are present in person or by a representative, who between them hold or represent the holder or holders of not less than two per cent of the voting rights entitled to be exercised on the resolutions to be considered at the meeting.

There are no voting restrictions on the resolution to be considered at the meeting.

Results of Voting

The results of voting at the Special Meeting will be posted on NZX, the Farm Source website and our My Co-op app as soon as vote counting is complete and the Chairman has declared the results.

Meeting Attendees

The Special Meeting is held for the benefit of Shareholders and their authorised proxies and representatives. Fonterra management will also be in attendance, as well as the auditors and invited members of the media.

Fonterra Board Chairman Letter

Dear Farmer Shareholders,

Your Board is pleased to put forward this final proposal to improve our capital structure as we seek to better enable our strategy and protect your farmer ownership and control of our Co-op.

The proposed “Flexible Shareholding” structure is a further progression on what we have consulted on this year.

We would like to thank the thousands of farmers who gave us their time and ideas as part of that process. Your feedback has helped us to shape this proposal into a model we believe best addresses the broad, and at times conflicting, views within our ownership base.

I encourage you to read all of the information provided in this Notice of Meeting. The full proposal is described on pages 9-13, and the changes we have made since September are described on pages 14-15.

The Board and senior management are united in the belief that this proposal is the best course of action for our Co-operative. Moving to a new capital structure now, while we are in a strong financial position and have all options available to us, is our best course of action.

The recommended changes have received 92% support from your Co-operative Council.

We are confident that these changes will support the sustainable supply of New Zealand milk that our long-term strategy is based on. Our future success relies on our ability to hold our own in an increasingly competitive environment, and one that is rapidly changing due to factors such as environmental pressures, new regulations and alternative land uses.

We see total New Zealand milk supply as likely to decline, and flat at best. Our Co-op’s supply depends on the actions we take with our capital structure, performance, productivity and sustainability. If we do nothing, we are likely to see around 12-20% decline by 2030 based on the milk supply scenarios we have modelled.

Protecting a strong New Zealand farmer-owned Co-operative of scale is in all our interests.

Fonterra delivers value to all of our New Zealand communities. A strong Co-op ensures we pay the highest sustainable milk price, and our milk price sets the benchmark for prices kiwi dairy farmers are paid for their milk. Securing our scale efficiency keeps our manufacturing sites utilised, and increases our ability to invest in on-farm support services, innovation, new markets and product development – all of which create value for New Zealand through milk price and profits returned to regions, export performance, employment, environmental performance, and community development.

Based on our current operations, our Farmgate Milk Price could be 6-13 cents lower by 2030 if we make no changes to our capital structure and continue to lose market share at the rate we’ve seen over the past 5 seasons to May 2020.

We believe this represents a structural impact on industry profitability that is likely to impact New Zealand dairy farmers every year.

Farmers leave for different reasons, but one of the most influential ones is the high level of compulsory investment that’s required to be part of our Co-op. A capital structure with flexible shareholding will help to level the playing field with our competitors, many of whom are foreign-backed and don’t require farmers to invest capital.

Deciding to stay with Trading Among Farmers (TAF) is an option, but we risk becoming a smaller and less efficient Co-op. If that is our collective decision, we would need to re-look at how we implement the strategy based on even more conservative risk settings. Under TAF, we are unlikely to be in a position to achieve the same level of returns in terms of capital and dividends as we have outlined in our long-term strategy.

As I said earlier, the Board is united in its view that what we are recommending is in the best interests of our Co-operative. There is no perfect answer, but we are confident that this structure will support the sustainable supply of New Zealand milk that our long-term strategy relies on. One enables the other, and together they give our Co-op the potential to deliver the competitive returns that will continue to support our families’ livelihoods from this generation to the next.

Changing our capital structure is the most profound decision we will make as farmers in almost a decade. I strongly encourage you to use your vote. It is a critical part of exercising our ownership and control of our Co-operative, and our external stakeholders will be looking for a strong mandate for change.

A successful farmer vote would not take effect until the Board is satisfied that any steps necessary for implementation have been, or will be, completed. We are aiming for 1 June 2022, but we need to keep working with the Government on what the changes might mean under the Dairy Industry Restructuring Act. We will keep you updated on the likely date on which the changes would take effect.

Peter McBride
Chairman

Chief Executive Letter

Dear Farmer Shareholders,

The last three years have been about resetting the business and showing what we can achieve when we focus on quality execution and our Co-op is aligned.

I want to thank you for giving your Management Team your support through this period and supplying the Co-op with your milk. Together, we've shored up our Co-op's foundations and done this despite the challenges of operating in a COVID-19 world.

As we come to the end of our business reset, we have turned our attention to the next phase of our strategy to focus on value growth. We've looked out to 2030 and the fundamentals of dairy – in particular, New Zealand dairy – are strong.

The world wants our sustainably produced, high-quality milk and this comes at a time when we see total New Zealand milk supply as likely to decline, and flat at best.

On the one hand, this requires the right capital structure to help ensure we don't lose the benefits of what generations of farmers have built – a New Zealand dairy co-operative of scale. But on the other hand, it gives us more options to be selective about what we do with your milk. In doing so, we can increase the value we generate for farmers and New Zealand over the next decade.

To make this happen we have made three strategic choices:

1. Focus on New Zealand milk
2. Be a leader in sustainability
3. Be a leader in dairy innovation and science.

Our strategy requires us to focus our capital and people on enhancing New Zealand milk and for these reasons we have reviewed our ownership of our two other milk pools – in Australia and Chile.

Both decisions are critical to achieving a greater focus on our New Zealand milk and, importantly, allowing us to free up capital – much of which is intended to be returned to shareholders.

We are confident that with access to a sustainable supply of New Zealand milk, Fonterra's strategy can deliver the financial targets we have set under our long-term strategy.

While continuing to pay the maximum sustainable milk price, the key value targets we're aiming to achieve by 2030 include:

1. A 40-50% increase in operating profit from FY21 and, with the reduced interest from having less debt, this should translate into an approximately 75% increase in earnings, giving us the ability to steadily increase dividends to around 40-45 cents per share by FY30
2. A Group Return on Capital of 9-10%, up from 6.6% in 2021

3. Through planned divestments and improved earnings, an intended return of about \$1 billion to shareholders by FY24, and around \$2 billion of additional capital available for a mix of investment in further growth and return to shareholders. This is in addition to the approximately \$2 billion expected to be invested in sustainability and moving milk into higher value products.

We also intend to increase our current total annual R&D investment by over 50% to around \$160 million per annum in 2030, with about \$60 million per annum specifically targeted at growth in Active Living.

These value targets are of course subject to successfully completing a number of business initiatives, and a number of assumptions and risks, each of which could materially affect the actual outcomes. The details of these are set out in the strategy booklet titled *Our Path to 2030* which was provided to you in September.

Our strategy and ability to achieve these targets depend on a sustainable supply of New Zealand milk and in turn a capital structure that enables this.

To achieve that, Fonterra must be an attractive option to farmers who have a choice on where their milk goes.

Our proposed capital structure gives all farmers a level of flexible shareholding, which is critical to supporting farmers to join or stay with our Co-op.

Your Management Team considers these changes to be our best course of action if we are to maintain farmer ownership and control of a financially sustainable Co-operative.

We have an incredible natural product made on your farms, a business supported by a talented and committed team, and an exciting opportunity to create value. It's up to us as a Co-op to work together, make the necessary changes and ensure we're creating goodness for generations.

Miles Hurrell
Chief Executive Officer

Co-operative Council Chairman Letter

Dear Fellow Farmer Shareholders,

This Notice of Special Meeting contains important information for you to consider ahead of your vote on a resolution concerning our Co-operative's capital structure.

Your Co-operative Council strongly encourages you to take time to consider this information to ensure you have a clear understanding of what you are being asked to vote on, and to exercise your ownership and control rights by voting. A well informed and participating shareholder base is critical to the success of our Co-operative, and every farmer shares in this responsibility.

In May, I informed you that the Council supported the guiding principles for the review. Since then there has been a significant consultation process that has included many opportunities for farmers to engage across a variety of formats. In response to the feedback, a lot of thought has been given to the proposed changes across all key stakeholders – Board, Management, Shareholders and your Co-operative Council.

I would like to acknowledge the efforts that the Board have gone to, to engage with all corners of our Co-op. We can see evidence that this has been true consultation through the number of changes to the proposal over time, and I have no doubt that all contributions have added value to the final outcome. We should all feel some ownership of the final outcome.

During the process we heard your feedback that, to make a decision on Capital Structure, we all needed more detail on Fonterra's strategy and the results that it could be expected to deliver. In September Miles and his management team were able to clearly articulate the path ahead, with a detailed strategic plan out to 2030. I commend them for this transparency and note that both the direction of travel and the level of detail have been well supported by farmers.

The changes the Board is recommending require changes to our Co-operative's Constitution. Under the Fonterra Constitution, changes to Part A of the Constitution require the support of a majority of 50% or more of Councillors.

To inform our vote Councillors attended consultation meetings; talked extensively with Co-op members to gather feedback and understand views; discussed and debated the proposals amongst ourselves, and with Board and Management. We have deeply considered the problem to be solved, the milk supply scenarios and the assumptions they are based on, the preferred option and the other options considered.

We have also received presentations from two external advisers to the Board; sought and considered our own independent advice; considered 'outlier' scenarios that might arise under the proposal; and carefully reviewed and considered the proposed Constitution changes.

Our particular areas of focus have been:

- the proposed changes alongside the Co-operative Principles
- ensuring democratic control is maintained for supplying shareholders
- the impacts of moving the minimum and maximum shareholding requirements away from the share standard
- analysing possible outcomes, in particular in relation to ownership and voting concentration
- the likely market dynamics of the proposed farmer only market.

Since the September proposal we have provided specific feedback to the Board on the Constitutional Thresholds, Associated Shareholders, and the capped Fund size. These discussions have been detailed, constructive, robust and have always been focused on the best outcome for Fonterra.

As a result, I am confident that the final proposal will give appropriate protections to supplying shareholders' ownership and control.

The Board is proposing an expanded Risk Management Policy (which currently monitors the size of the Fund) be developed in consultation with Council. The policy will monitor the total number of shares on issue compared to milk supply, and the level of shareholding in our Co-operative by former suppliers and their permitted transferees.

The proposed changes to the Constitution recognise our differences as farmers, but that we come together as a co-operative with a common purpose:

Our Co-operative,
Empowering people
To create goodness for generations.
You, me, us together
Tātou, tātou.

I encourage you to consider the recommendation from the lens of what's in the best long-term interest of our Co-operative.

The recommended changes have received 92% support from your Co-operative Council.

Ultimately, however, the mandate for change must come from all shareholders. To be successful, the resolution requires the support of 75% of shareholders who vote.

It is very important that you participate, so please make time to consider the proposal and cast your vote.

James Barron
Chairman, Fonterra Co-operative Council

Chairman, on behalf of the Board
Notice of Meeting dated 16 November 2021

Business

Welcome / Introduction

The Chairman will welcome Shareholders.

Special Meeting Proceedings

Chairman of the Board’s Address

Chairman of the Fonterra Co-operative Council’s Address

Approval of Capital Structure related Amendments to the Constitution

Resolution 1: Approval of Capital Structure related Amendments to the Constitution

To consider and, if thought fit, to resolve as a special resolution:

“To approve that:

- (a) *the Constitution of the Company be amended as set out in Part Three of this Notice of Meeting; and*
- (b) *the amendments to the Constitution be effective on and from the date determined by the Board and advised to Shareholders once the Board is satisfied that any steps necessary for implementation have been (or will be) completed in a manner that the Board considers (in its discretion) to be appropriate.”*

The above resolution is a special resolution required by section 106(1)(a) of the Companies Act 1993.

On 2 November 2021 the Board of Fonterra approved the changes to the Constitution of the Company as outlined in Resolution 1, subject to Shareholders’ approval. The Board recommends that Shareholders vote to support the amendments proposed in Resolution 1.

As the proposed amendments will alter Part A of Fonterra’s Constitution, the support of a majority of 50 per cent or more of Co-operative Councillors is required under clause 18.1 of the Constitution. The Co-operative Council has confirmed that 92% of Councillors support the proposed amendments.

A solicitor’s opinion regarding the Constitution of the Company, as required under Rule 1.11.1 of the Fonterra Shareholders’ Market Rules, has been provided to NZX.

If Resolution 1 is passed by the requisite majority of 75 per cent or more of votes cast by Shareholders entitled to vote and voting on the resolution, the Constitution will be amended as set out in Part Three of this Notice of Meeting, with effect from the date determined by the Board and advised to Shareholders once the Board is satisfied that any steps necessary for implementation have been (or will be) completed. If Resolution 1 is not passed then the Constitution will not be amended as outlined above. In that case, the Company will engage with Shareholders about next steps, and the temporary cap on the size of the Fund is expected to remain in effect until then, at least.

It is important you read the detail about the proposed changes to the Company’s Constitution, as set out in the Overview provided in Part Two, and the Explanatory Notes set out in Part Three of this Notice of Meeting. This will provide you with all the detail that you need to enable you to vote on the special resolution set out above.

1. What you are voting on and why

You are being asked to vote on changes to Fonterra's Constitution that enable a **Flexible Shareholding** structure.

At a high level this means that:

- the Share Standard of 1 share per 1 kgMS supplied would remain, but the minimum shareholding requirement would be set at 33% of the Share Standard, or around 1 share per 3 kgMS supplied, and the maximum holding would increase to 4x the Share Standard, so all farmer shareholders would have more flexibility around increasing and decreasing their shareholding during their farming career;
- the Fonterra Shareholders' Market (**FSM**) would continue to operate as a farmer-only market, and the Fonterra Shareholders' Fund (the **Fund**) would remain capped so that shares would not be able to be exchanged into units by shareholders selling them into the market on a day-to-day basis. The overall limit on the Fund size in the Constitution would reduce from 20% to 10% of total shares on issue.

The Board unanimously recommends these changes to put us in the best position to deliver the value outlined in our strategy and protect farmer ownership and control of our Co-op.

Given the Board's unanimous recommendation and the support of 92% of the Co-operative Council, if the resolution is not passed the Co-op will need to engage with shareholders about next steps, and the temporary cap on the size of the Fund is expected to remain in effect until then, at least. As outlined in the May announcements, the Co-op will provide shareholders with at least 6 months' notice of any new date for compliance obligations to be met.

IMPORTANT NOTES:

The meeting on 9 December 2021 is intended to be the only meeting where shareholders will vote on proposed changes to Fonterra's Constitution before implementation of the Flexible Shareholding structure.

If the resolution is passed, the Co-op will continue to work on any necessary steps for implementation. It is not expected that any further meetings of shareholders, or additional resolutions, would be needed. The Board would continue to keep shareholders informed in relation to the likely date on which the amendments to the Constitution will come into effect.

The changes to the Constitution you are being asked to vote on now set out the parameters and protections for the Flexible Shareholding structure.

- **There will need to be more detailed rules, processes and procedures such as the rules and requirements for how sharemilkers, contract milkers and farm lessors become associated shareholders, and in what circumstances shares may be transferred when a shareholder ceases to supply the Co-op.**
- **Some of these details are yet to be determined and will continue to be developed (as appropriate) by the Board in consultation with the Co-operative Council, and communicated to shareholders before any changes become effective.**
- **The detailed rules, processes and procedures may change from time to time to, for example, allow for new or unforeseen circumstances. However, they will need to remain within the parameters and protections in the overall framework of the Constitution that you are being asked to vote on now.**

2. Overview of Flexible Shareholding

This section describes how Flexible Shareholding will operate if it is approved by Shareholders at the Special Meeting.

Share Standard, Minimum Holding, Maximum Holding and Individual Limit

- The Share Standard of 1 share / 1 kgMS supplied, which has been a feature of our Co-op for many years, remains.
- The Minimum Holding (often referred to as the minimum shareholding requirement) is set at 33% of the Share Standard (rounded down to the nearest whole number), which is around 1 share for every 3 kgMS.
 - This provides flexibility for all farmers, which is critical to maintaining a sustainable milk supply, while ensuring all supplying shareholders have some capital-backed supply.
- The Maximum Holding increases to 4x the 1:1 Share Standard.
 - Lifting the cap on share ownership from the current 2x helps to ensure that there is more capacity for other farmers to buy shares from those who want to sell.
 - The Board retains the ability to reduce the Maximum Holding, but it has no current intention to do so.
- The Minimum Holding and Maximum Holding are still determined based on a rolling three-season average (or relevant estimates where there is no average).
- Separate to the Maximum Holding, the overall limit on the number of shares any individual shareholder can hold on a “relevant interest” basis, referred to as the Individual Limit, is tightened so that the limit (of 5% of the total shares in the Co-op) applies to all shares held rather than only applying to dry shares.
- The total number of shares on issue in the Co-op is intended to stay within +/- 15% of the Share Standard in aggregate for all supplying shareholders. The Board will monitor this under a policy and will consult with the Co-operative Council on the terms of the policy.

Who could hold shares?

- The following types of farmers will be able to hold shares in our Co-op:
 - **Supplying shareholders** - farmers who supply milk to our Co-op and meet our Terms of Supply. This type of farmer can currently hold shares and is referred to in our Constitution as “a Shareholder that is supplying milk to the Company.”
 - **Associated shareholders** - farmers who are associated with a supplying shareholder, being:
 - › Sharemilkers under a sharemilking arrangement with a supplying shareholder;
 - › Contract milkers under a contract milking arrangement with a supplying shareholder; and/or
 - › Farm lessors – that is dairy farmland owners who have leased their land to a supplying shareholder.This recognises their connection to our Co-op, provides a pathway for our future supplying shareholders to buy shares and supports liquidity in a farmer-only market.
 - **Ceased shareholders and their permitted transferees** – a supplying shareholder or associated shareholder who ceases can hold their shares for their applicable exit timeframe as set out further below. Supplying shareholders (but not associated shareholders) who cease may transfer their shares to a related or associated party as a “permitted transferee” as set out further below.
- We will still have only one class of share in the Co-operative, and we can still think of shares as:
 - “wet shares” being shares up to the 1:1 Share Standard for a supplying shareholder
 - “dry shares” being shares that are not backed by milk supply
- **Supplying shareholders** need to hold at least the new Minimum Holding of 33% of their Share Standard (subject to the entry timeframes outlined below). Supplying shareholders may also hold additional wet shares up to their 1:1 Share Standard and further dry shares, up to the 4x Maximum Holding in total. As the wet shares are backed by milk supply, supplying shareholders can exercise votes on them (as they currently can).

- **Associated shareholders** are not suppliers of milk to our Co-op under our Terms of Supply, so they will only hold dry shares. This means that associated shareholders, like dry shareholders, will not be able to exercise any votes except where their rights are proposed to be affected differently to wet shareholders, or other dry shareholders (which is not contemplated).
- Associated shareholders in respect of a farm can apply directly to the Co-op to own shares, provided the total held by all associated shareholders in respect of that farm does not exceed 1x the milk supply from that farm.
 - This means that where there is an associated shareholder in respect of farm, the total number of shares that may be held in respect of that farm is 5x that farm's milk supply.
- The amendments to the Constitution refer to separate rules setting out the specific criteria such as who would qualify as an associated shareholder, the process to apply to be an associated shareholder and the process for allocation of shares. These rules are still being developed and will be able to be changed from time to time but must remain consistent with the overall framework of the Constitution. The rules will be made available to shareholders before any changes are effective.
- Supplying shareholders with more than one farm will no longer need to hold shares against specific farms, but they may continue to do so if they wish.
 - This means that instead of having a separate Common Shareholder Number (CSN) to register the Minimum Holding and Share Standard for each farm, supplying shareholders could have a single CSN for all of their farms going forward. Equally, supplying shareholders can retain separate CSN's for each farm, if they prefer.
 - Any dry shares held by associated shareholders are recorded against the relevant farm so that the Co-op can maintain clear records.
 - The supply of milk from each farm will still be treated separately for milk quality and supply purposes.

Entry timeframes, Share-Up Over Time and MyMilk Contracts and the Contract Fee for Units Trust

- New supplying shareholders, or existing supplying shareholders who have a material increase in milk supply, can purchase shares, or increase their shareholding, to achieve their 33% Minimum Holding over six seasons. In their first season, they are required to hold 1,000 shares, with the remainder split evenly over the following five seasons (with the ability to buy more shares earlier if a shareholder chooses to do so).
 - The Board considers that this strikes a balance between flexibility and retaining a minimum requirement for supplying shareholders to share up. At approximately 6.6% of supply in each of those five seasons, the compulsory investment to supply the Co-op is significantly reduced compared to the current requirements.
 - The Board can still set a timeframe for new or existing shareholders that is longer or shorter than the six seasons (and can still adjust the number of shares that must be bought in each season). The Board currently intends to maintain the position outlined above, but it is possible in the future that it may have to change this depending on the circumstances at the time.
 - New supplying shareholders who choose to purchase their Minimum Holding over six seasons are committed to supply the Co-op for that period, although this is subject to any DIRA and other legal requirements. If the supplying shareholder then purchases their Minimum Holding before the end of the six seasons, they are still required to supply the Co-op for the six seasons, unless the Board decides otherwise.
- The existing Share-Up Over Time and MyMilk contract options are no longer offered. However the Co-op will honour all existing contractual commitments. To make these contracts more consistent with the capital structure changes:
 - The share-up obligations under existing Share-Up Over Time contracts would be reduced to reflect the 33% Minimum Holding
 - The contract fee under all existing contracts would be set to zero for their remaining terms.
- Since the 2018/19 season, the contract fee under Share-Up Over Time and MyMilk contracts has been transferred to the "Contract Fee for Units Trust", which uses those fees to purchase units that are held on trust for, and distributed to, the relevant supplying shareholder or MyMilk supplier when they need to share up. Under Flexible Shareholding:
 - All units (and any cash) held on trust for supplying shareholders under a Share-Up Over Time Contract will be distributed to them.

- Units (and any cash) held on trust for MyMilk suppliers will be distributed to the supplier when they become a supplying shareholder, which they can do at any time.
- If MyMilk suppliers choose not to transition to become a supplying shareholder at the end of their contract term, the units (and any cash) held on trust will be forfeited to the Co-op.
- Once all units have been distributed or forfeited, the Contract Fee for Units Trust would also be wound up.
- Where a supplying shareholder's obligation to purchase shares, whether under an existing contract or as a new supplier, is treated as a contingent liability by the supplying shareholder's bank, the Minimum Holding of 33% means that the contingent liability reduces to 33% of what it would otherwise be under the current Constitution.

Exit timeframes

- **Supplying shareholders** have longer timeframes to hold onto or sell their shares once they have ceased supplying the Co-op.
 - All supplying shareholders on the date of the Special Meeting, and who subsequently cease to supply the Co-op by giving not less than three months' notice prior to the start of the season in which the cease would be effective, will have up to 15 seasons to sell their shares, reducing by one season each year to 10 seasons from 1 June 2027. The Board can adjust these timeframes depending on the circumstances at the time – as noted further below in this section.
 - All new supplying shareholders who join after the date of the Special Meeting and who subsequently cease to supply the Co-op by giving not less than three months' notice prior to the start of the season in which the cease would be effective, will have up to five seasons to sell their shares.
 - Currently, supplying shareholders who cease but do not give the Co-op at least three months' notice prior to the start of the season in which the cease is effective, have to sell their shares by the next compliance date. Often these are unplanned, such as mid-season farm sales. The Board will have a new discretion to determine whether these exiting shareholders would be eligible for the above timeframes to sell their shares. The rules setting out the criteria for the exercise of this discretion from time to time are still being developed, and will be able to be changed from time to time, within the overall framework of the Constitution. The rules will be made available to shareholders before any changes are effective.
 - All ceased shareholders who gave the Co-op not less than three months' notice prior to the start of the season in which the cease was effective and who still hold shares on the date of the Special Meeting will have up to the compliance date in the season ending 31 May 2037 (being 15 seasons) to sell their shares. Any shareholders who have ceased since 28 February 2021 and did not give the Co-op three months' notice will be advised of whether they are eligible for the above timeframes applying the criteria outlined above.

The above timeframes give all existing shareholders greater choice about how long they retain an investment in our Co-op after they cease and should help reduce any shorter-term sell-side pressure that may arise from the changes. This is intended to reflect feedback that existing farmer shareholders should be given a longer timeframe to sell, recognising that they would be impacted by the move to a restricted market.

- **Associated shareholders** will have up to three seasons to sell shares, once they cease to be associated with a supplying shareholder.
 - This shorter timeframe is intended to reflect that they are not the supplier of milk to the Co-op, while providing some flexibility to allow for adjustments when they switch to a different supplying shareholder.
- The proportion of shares in the Co-op held by ceased shareholders and permitted transferees is not intended to exceed 25% of total shares. This 25% threshold is in the Constitution. The Board will monitor this threshold under a policy and will consult with the Co-operative Council on the terms of the policy.
- The Board can still set timeframes that are longer or shorter than the periods noted above (and can adjust the number of shares that must be sold in each season). The Board can also change the timeframes and number of shares for any shareholder that has already ceased.
- While the Board currently intends to maintain the timeframes outline above, it is possible that it may have to change one or more of them in the future depending on the circumstances at the time. For example, in the unlikely event that the proportion of shares held by ceased shareholders or their transferees exceeds the 25% of total shares on issue, the Board may reduce the timeframes in a way that applies fairly to shareholders who had already ceased and those who cease going forward.

Permitted transfers when leaving our Co-op

- **Supplying shareholders** leaving the Co-op can transfer their shares to a person approved by the Co-op who is related to or associated with them:
 - if it is completed by the end of the first season in which the supplying shareholder ceases supplying the Co-op; or
 - at any time in the event of the death of the supplying shareholder, or a member of a partnership, trustee or shareholder of that supplying shareholder.
- The amendments to the Constitution refer to separate rules for how this will work including the types of people or entity that would qualify as related to or associated with a supplying shareholder, the types of supporting documentation required, and ongoing certification requirements to ensure the permitted transferee remains related to or associated with the supplying shareholder. These rules are still being developed, and will be able to be changed from time to time, within the overall framework of the Constitution. The rules will be made available to shareholders before any changes are effective.
- **Associated shareholders** do not have these same rights because they are not the supplying shareholder and they are required to sell down their shares over a shorter exit timeframe. However, the existing provisions for shares to pass with the estate of a deceased shareholder still apply to associated shareholders.

Voting rights

- Voting rights stay the same as they are today – that is based on both milk supply and shares in our Co-op, at a ratio of 1 vote per 1,000 kgMS of share-backed supply in the previous season. This means that to the extent a supplying shareholder chooses to reduce their shareholding below the 1:1 Share Standard, their voting rights would also reduce.

Vouchers

- Vouchers are cancelled as part of the proposed changes. Supplying shareholders who currently hold vouchers are not required to purchase more shares, because vouchers have only been able to count towards a maximum of 25% of the Share Standard. With a reduction in the Minimum Holding to 33% of the Share Standard, those supplying shareholders still hold shares well in excess of the new Minimum Holding. Those supplying shareholders lose the voting entitlement that their vouchers currently count towards, which is consistent with the position on voting outlined above. They would need to acquire further shares (up to the 1:1 Share Standard) to be able to exercise full voting rights on their share-backed supply. Where voucher holders already also hold additional dry shares, the dry shares would automatically start being counted as wet shares up to the 1:1 Share Standard.

Tax impacts

- Dividends or other distributions paid on wet shares held by a supplying shareholder are still tax-deductible for the Co-op. Depending on how many wet shares are held by shareholders as a result of the 33% Minimum Holding, there may be an impact on the Co-op's tax profile.
- Shareholders are still required to account for these dividends or distributions as income and pay income tax depending on their own tax status.

The Fonterra Shareholders' Market (FSM)

- Shares are still traded between farmer shareholders in the FSM. However, shares are not able to be exchanged into units in the Fonterra Shareholders' Fund (Fund) on a day-to-day basis in the same way as they were before the temporary cap on the Fund in May. This is to protect farmer ownership and control of the Co-op because the overall limit on the Fund size could otherwise be exceeded relatively quickly with Flexible Shareholding.
- The price of shares in the FSM will reflect the prices at which farmer shareholders buy and sell shares. Shares are likely to trade at a discount to the price for units in the Fund, because they can no longer generally be exchanged into units in the Fund. The FSM is therefore restricted to farmers and the likely discount reflects that restricted market. However, the FSM remains a fully regulated and functioning market with a large number of participants.

- Arrangements will be put in place to support liquidity in the FSM including:
 - A registered volume provider or market maker will provide buy and sell quotes for shares in the FSM within certain price limits and timeframes so that there is a price available for shares to be traded.
 - The Co-op will allocate up to \$300m to support liquidity as farmer shareholders transition to the new structure, through an on-market share buy-back programme, which would reduce the total number of shares on issue, and potentially other tools such as market maker arrangements.
 - The Co-op may provide additional financial support through a market maker where appropriate.
- Flexible Shareholding is intended to provide farmers with greater flexibility in share ownership to meet the circumstances of their farming career. It does not mean that all farmers who hold 100% of the Share Standard (or more) will sell their shareholding in the Co-op so that they only hold 33% of their Share Standard.

The Fonterra Shareholders' Fund

- The Fund remains in place, preserving capital, and preserving the ability for non-farmers to invest in the economic rights of a share in our Co-op by purchasing units in the Fund.
 - The Fund gives those in our wider community an opportunity to invest in the New Zealand agri-food sector and share in our Co-op's future.
 - It provides a reference for how outside investors value the economic rights in a share.
 - Maintaining the Fund listed on the NZX supports research coverage of the Fund and Fonterra's performance, which is useful for both shareholders and unit holders.
- The current overall limit on the size of the Fund in the Constitution reduces from 20% to 10% and shares are not able to be exchanged into units as part of day-to-day trading as they were prior to the temporary cap in May. The Board will monitor this overall limit under a policy and will consult with the Co-operative Council on the terms of the policy.
- While the actual size of the Fund is currently around 6.7% of total shares on issue, it could change from time to time. This includes:
 - If the total shares on issue change, for example, through the on-market share buy-back programme or a dividend reinvestment plan. By way of example, if the current total shares on issue reduced by 100 million shares, with no change to the number of shares in the Fund, the Fund size would increase by about 0.5%.
 - Decreases in the Fund size if farmer shareholders holding units convert those units into shares.
 - Changes in the Fund size arising as a result of any market maker arrangements the Co-op enters to support liquidity in the FSM.
 - If, in the future, the Board considered it was appropriate to increase the Fund size, it could do so subject to the overall limit of 10%.
- Additional protections are included in the Constitution to prevent shareholders from transferring their economic interests in shares to third parties (other than where genuine reasons exist such as security for lending) and to prevent unauthorised funds from being established.
- The Board may still choose to buy back the Fund in the future.

If you have any questions on these materials, please feel free to discuss them with your rural professional advisers or your Area Manager. For any questions about your own financial circumstances or your holding of shares or units, please contact your accountant, lawyer, financial advisor or other rural professional.

3. What has changed since the September booklet

The following changes have been made to the Flexible Shareholding structure since the revised proposal was announced in September. These changes have resulted from feedback from shareholders and further consultation with the Co-operative Council and the independent directors of the management company for the Fund.

Constitutional Thresholds / Policy

- The following thresholds have been added to the Constitutional parameters for the Flexible Shareholding structure, to support alignment of share ownership and milk supply. The Board will monitor these thresholds under a policy and the Board will consult with the Co-operative Council on the terms of the policy.
 - The total number of shares on issue in the Co-op is intended to stay within +/- 15% of the Share Standard in aggregate for all supplying shareholders.
 - The proportion of shares in the Co-op that are held by ceased shareholders and permitted transferees is not intended to comprise more than 25% of total shares.

Associated Shareholders

- The way dry shares are allocated to associated shareholders has been updated and simplified to make it easier for Associated Shareholders to apply to hold dry shares.
- Associated shareholders can apply directly to the Co-op to hold up to 1x the milk supply from the Farm. This replaces the September proposal which required sharemilkers, contract milkers and farm lessors to get their supplying shareholder to allocate a part of the supplying shareholder's dry shares up to the Maximum Holding to them.
- This change means that where there is an associated shareholder, the total number of shares that could be held in respect of a single farm is 5x that farm's milk supply (rather than 4x milk supply, which is what the September booklet proposed).
- Also, in the September booklet there was the ability for sharemilkers who are associated shareholders to apply to have their shares count towards the Minimum Holding in limited circumstances. This has now been removed from the proposal.

Capped Fund Size

- The overall limit on the size of the Fund in the Constitution would be reduced from 20% to 10%, rather than a total ban on any further shares being exchanged into units. Shares will still not be able to be exchanged into units on a day-to-day basis – the Board retains its current rights to regulate this process.
- Reducing the overall limit on the size of the Fund in the Constitution from 20% to 10% recognises that the Fund size is currently around 6.7% of total shares on issue, but that this percentage could change from time to time subject to the overall limit of 10%, for example:
 - If the total shares on issue change, for example, through the on-market share buy-back programme or a dividend reinvestment plan.
 - If farmer shareholders holding units convert those units into shares.
 - As a result of any market maker arrangements the Co-op enters to support liquidity in the FSM.
 - If, in the future, the Board considered it was appropriate to increase the Fund size, it could do so up to the overall limit of 10%.
- The Board will still monitor this overall limit of 10% under a policy, and will consult with the Co-operative Council on the terms of the policy.

Ceased Shareholders who have not provided 3 months' notice

- The Board has a new discretion to allow ceased shareholders who have not provided the required 3 months' notice prior to ceasing to still hold their shares for the relevant extended exit timeframes. Currently, shareholders who do not provide this notice are required to sell all of their shares by the next compliance date. The discretion would be exercised in accordance with Board approved rules setting out the criteria the Board would consider, which could be changed from time to time, when

exercising the discretion. The criteria could include factors such as how long the ceased shareholder has supplied the Co-op, whether the ceased shareholder has facilitated the continuation of the milk supply to the Co-operative and whether there are any other particular circumstances of the ceased shareholder that are relevant.

Invest As You Earn

- Some shareholders have asked whether there would be any ability for the Co-op to purchase shares on their behalf by deducting an amount from their monthly milk payments. This would be similar to the “Invest As You Earn” financial tool where the Co-op purchased units on behalf of farmers by deducting an amount from the farmer’s milk payments. If shareholders vote in favour of the resolution, the Co-op would look to make this available as soon as possible after the changes become effective.

Co-operative Principles

The Co-operative Council has proposed that if farmers vote in favour of the Flexible Shareholding structure the Co-operative Principles should be reviewed for consistency with the Constitution. The particular principles the Co-operative Council has identified as potentially needing revision are:

Principle 1: Shares in Fonterra can only be acquired by persons supplying milksolids to Fonterra

- To allow for Associated Shareholders and Permitted Transferees who are not suppliers of milksolids to the Co-op

Principle 3: Supplying shareholders must comply with the Co-operative Share Standard in respect of their milk solids supplied

- To allow for the Share Standard remaining at 1:1 with the minimum requirement at 33% of the Share Standard

Principle 4: Control of Fonterra is exercised by its supplying shareholders who have voting rights in proportion to their total milksolids supplied

- To clarify that voting rights are proportional to share-backed milksolids (which is the current position)

4. When the proposed changes would be effective

The proposed changes would be effective on a date notified by the Board to shareholders once the Board is satisfied any steps necessary for implementation have been (or will be) completed.

At this stage the Board is aiming for an effective date of the start of next season, being 1 June 2022. If that date is not achieved, the changes could be effective sometime during the next season, or later if needed.

Compliance obligations would remain on hold until at least 6 months after the changes are effective to allow shareholders a reasonable time to adjust to the new structure.

Legislative Changes

We have been consulting with the Government for a number of months on proposed changes to our capital structure and what the changes might mean under DIRA.

We are aligned with the Government on the importance of ensuring the Co-op operates as a strong, intergenerational, farmer-owned dairy processor, and that a successful and innovative Co-op is central to a well-functioning dairy industry.

A copy of a letter from the Minister of Agriculture outlining the Government's views on our capital structure as at 3 November 2021 is provided at the back of this Notice of Meeting. In that letter, the Government has indicated that at this stage it would be difficult for it to support an amendment to DIRA to facilitate Flexible Shareholding, and we understand that the Government is prepared to work with us to arrive at a mutually acceptable outcome.

We acknowledge the Government's current position, but believe the Flexible Shareholding structure is the best option for maintaining a strong intergenerational farmer-owned Co-op of scale.

Accordingly, if shareholders vote in favour of the Flexible Shareholding structure, we will continue to work with the Government over the coming months to achieve a mutually acceptable outcome.

Up to \$300m Liquidity Support

When the changes are effective, there may be a small subset of farmers that come under pressure to sell those shares which they are no longer required to hold in order to supply the Co-operative. Depending on the number of shares, selling by those farmers could result in downward pressure on the share price in the months after moving to the new capital structure.

Recognising this potential impact on trading in the FSM, the Co-op would allocate up to \$300 million to support liquidity in the market as farmer shareholders transition to the new structure, starting when the changes become effective.

This would be through an on-market share buy-back programme, which would reduce the total number of shares on issue, and potentially other tools such as market maker arrangements. The Co-op would only exercise these options in order to support liquidity where there is an imbalance between the number of shares that farmers shareholders want to sell and buy, and where the price represents value to the Co-op and is in the best interests of shareholders.

Shareholders would know when the Co-op has bought back shares on the market, because the Co-op would be required to disclose details such as the number of shares bought and the average price.

PART THREE

Constitution Changes and Explanatory Notes

The Board is putting Resolution 1 to Shareholders at the Special Meeting on Thursday 9 December 2021 to approve amendments to the Constitution to give effect to the Flexible Shareholding capital structure.

A full copy of the Constitution is set out in the first column of the table below showing the specific amendments in blue (for additions) and red (for deletions). The specific explanatory notes for each amendment are set out in the second column of the table below, and there are further explanatory notes and commentary provided in Part Two of the Notice of Meeting.

The base version of the Constitution shown in this Part Three is current as at the date of this Notice of Meeting – it does not reflect the separate changes that are proposed in the Notice of Meeting for the Annual Meeting. If some or all of the changes proposed in the Notice of Meeting for the Annual Meeting are passed at that meeting, the final Constitution as amended by Resolution 1 (when it takes effect as described below) will reflect those other changes as well. A consolidated version of the Constitution would be prepared at the point that Resolution 1 takes effect and made available to Shareholders, showing all of the changes together.

The explanatory notes in the second column below do not form part of the Constitution, and if Resolution 1 is passed, the resulting form of Constitution will exclude the explanatory notes contained in that column.

If Resolution 1 is passed by the requisite majority of 75 per cent or more of votes cast by Shareholders entitled to vote and voting on the resolution, the Constitution will be amended as set out below, with the amendments being effective on and from the date to be advised by the Board once it is satisfied that any necessary changes to legislation have been (or will be) obtained in a form that the Board (in its discretion) considers to be appropriate.

If Resolution 1 is not passed then the Constitution will not be amended as outlined above. However, in that case, the Co-op will engage with Shareholders about next steps, and the temporary cap on the size of the Fund is expected to remain in effect until then, at least.

Amendments to Constitution	Explanatory Notes
PART A – CO-OPERATIVE PRINCIPLES OF COMPANY	
<p>1. PURPOSE AND PRINCIPAL ACTIVITIES</p> <p>1.1 Continuation of co-operative activity: The Company is registered as a co-operative company under the Co-operative Companies Act and intends to continue its business as a co-operative dairy company.</p> <p>1.2 Purpose: The purpose of the Company in carrying out its business is to maximise the wealth of its Shareholders by:</p> <ul style="list-style-type: none">(a) the sale of their Milk;(b) providing a purchaser of that Milk; and(c) enhancing the value of the Company as a co-operative. <p>1.3 Principal activities: The principal activities of the Company are:</p> <ul style="list-style-type: none">(a) the manufacture and sale of butter, cheese, dried Milk, or casein, or any other product derived from Milk or Milksolids supplied to the Company by its Shareholders;(b) the sale to any person of Milk or Milksolids supplied to the Company by its Shareholders; or(c) the collection, treatment, and distribution for human consumption of Milk or cream supplied to the Company by its Shareholders. <p>1.4 No restriction on activities: Clause 1.3 does not limit, or impose a restriction on, the activities of the Company.</p>	

Amendments to Constitution	Explanatory Notes
<p>1.5 Fonterra Shareholders Market: Co-operative Shares may, on and from a date determined by the Board, be quoted and traded on the Fonterra Shareholders Market. At all times while Co-operative Shares are quoted and traded on that Market the Company will comply with the Market Rules, subject to:</p> <p>(a) the requirements of the Act, the Co-operative Companies Act, and any other applicable legislative or regulatory requirements; and</p> <p>(b) the terms of any Ruling given by the Operator.</p> <p>1.6 Authorised Fund: The primary purpose of the arrangements in clause 7 is to facilitate <u>regulate the operation of the Authorised Fund;</u></p> <p>(a) liquidity in relation to the trading of Co-operative Shares; and</p> <p>(b) the ability of Shareholders to exchange some or all of the rights or interests in Co-operative Shares for securities issued by an Authorised Fund, and vice versa;</p> <p>but subject always to the rights, powers and limitations contained in this Constitution (including in clause 7).</p>	<p>This amendment reflects the cap on the size of the Fund.</p>
<p>2. SHAREHOLDERS</p>	<p>No change. This clause provides</p>
<p>2.1 Applications for supply: Any person that intends to commence the supply of Milk to the Company shall give written notice of that intention to the Company and complete such application in the form and by the time the Board may from time to time determine in a manner consistent with any applicable enactment.</p>	<p>Milk to the Co-op (and therefore subject to the Terms of Supply) to apply to become a Shareholder.</p> <p>This could include a Sharemilker that is supplying Milk to the Co-op. Sharemilkers that do not supply milk directly to the Co-op will be able to become “Associated Shareholders” under clause 2.2(b).</p>
<p>2.2 Irrevocable application:</p> <p>(a) The supply by any person of Milk to the Company is an irrevocable application by that person to become a Shareholder and to hold the number of Co-operative Shares from time to time required <u>under this Constitution</u> by the Share Standard, or by the Board under clause 3.21, as applicable.</p> <p>(b) <u>A Farm Lessor, Sharemilker or Contract Milker may apply to become an Associated Shareholder, and to hold Co-operative Shares (subject to any limitations in, and otherwise in accordance with, any rules adopted by the Board or from time to time applicable).</u></p>	<p>These amendments provide flexibility for suppliers to hold the 33% Minimum Holding, rather than the Share Standard. They also remove the redundant reference to clause 3.21, which is superseded by the reduced Minimum Holding.</p> <p>Farm Lessors, Sharemilkers and Contract Milkers may also apply to become Shareholders (to the extent permitted by the rules referred to here), even though they are not the “supplier” of Milk to the Co-op – rather they have been grouped as “Associated Shareholders” of a Shareholder that is supplying Milk to the Co-op.</p> <p>The Minimum Holding will remain the responsibility of the supplying Shareholder.</p>

Amendments to Constitution	Explanatory Notes
<p>2.3 Board may accept application:</p> <p>(a) Subject to clause 2.3(b), the Board may in its absolute discretion decide:</p> <p>(i) whether or not to accept an application by a person to become a Shareholder made in accordance with clause 2.2 or any application procedure which the Board may from time to time determine; and</p> <p>(ii) whether or not to accept the supply of Milk from any person, on such terms and conditions as the Board thinks fit, without requiring that person to become a Shareholder in respect of that supply.</p> <p>(b) In respect of applications for the supply of Milk to the Company that are made on or after 1 June 2023, the Board will (subject to clause 2.4) accept an application by a person to supply Milk to the Company from any Farm from which, at the time of the application, Milk is supplied to the Company, provided that the Board is satisfied that the applicant and the relevant Farm comply with the Terms and Conditions. This clause 2.3(b) will cease to apply on the first date that subpart 5 of Part 2 of the Dairy Industry Restructuring Act 2001 is repealed or otherwise ceases to apply to the Company.</p>	<p>The application procedures would be updated to cover Farm Lessors, Sharemilkers and Contract Milkers applying to become Shareholders.</p>
<p>2.4 Board may not admit certain persons: The Board may not <u>only</u> admit, as a Shareholder, any person:</p> <p>(a) whose supply or estimated supply of Milksolids obtainable from Milk to be supplied to the Company by that person in a Season is <u>not</u> less than 1,000 kilograms of Milksolids or such minimum level of supply as determined from time to time by the Board, being a level not more than 15% greater than the level applying in the preceding Season; or</p> <p>(b) who is <u>an Associated Shareholder</u> Sharemilker who has not been approved by the Board as a Shareholder in accordance with either any rules established by the Board from time to time or any applicable enactment; <u>or</u></p> <p>(c) <u>who is a Permitted Transferee of a Shareholder.</u></p>	<p>These amendments are to express the requirements positively rather than negatively, and to confirm that Associated Shareholders (ie Farm Lessors, Sharemilkers, Contract Milkers) and Permitted Transferees (direct relatives, partners, shareholders etc of ceased Shareholders, and entities controlled by them) may be admitted as Shareholders if they meet the applicable requirements, even though they do not supply Milk to the Co-op.</p> <p>Sharemilkers have a statutory right under section 44 of the Co-operative Companies Act to become Shareholders in some situations. Their rights under that “enactment” are preserved here.</p>

Amendments to Constitution	Explanatory Notes
<p>2.5 [Not used] Separate designation for supplies from each Farm: The supply of Milk to the Company from each Farm shall be treated as a supply from a separate Shareholder, and the Company shall take appropriate steps to ensure the Co-operative Shares relating to the supply from each such Farm are registered separately in the Share Register and other applicable records of the Company.</p> <p>2.6 Requests for separate designation for suppliers from same Farm: A Shareholder may request the Company to treat the supply of Milk from the same Farm as split between supply by two or more persons in accordance with any rules established by the Board from time to time and, subject to clause 2.7, the Company shall take appropriate steps to ensure the Co-operative Shares relating to each such separate supply are registered separately in the Share Register and other applicable records of the Company.</p> <p>2.7 Requests for acceptance of supply as not being from a Shareholder: A Shareholder may request the Company to accept one or more of the supplies of Milk described in clause 2.6 as being a supply from a person not required to become a Shareholder in respect of that supply, and that request shall be determined by the Board in accordance with clause 2.3(a)(ii).</p> <p>2.8 Identification of separate supply: For the purposes of clauses 2.5, 2.6 and 2.7 a Farm or separate supply from a Farm shall be identified in such reasonable manner as the Board determines shall most effectively ensure that the Company may treat supply from that Farm as being separate and distinct from any other Farm, or from other Milk supplied from that Farm, in the case of clauses 2.6 and 2.7, for operational, Milk quality and commercial purposes. The initial identification shall, in the Company’s discretion, be by reference to the Farm supply number, party number, farm grouping number, Farm tank number or such other identifier as the Company may specify or by which that Farm or that separate supply is identified in the records of the Company for the time being.</p>	<p>This is being removed to allow Shares to be registered at a Party level (which is the default under the Companies Act, so no specific provision is needed). Associated Shareholders would have their Shares registered in their own names, as a separate Shareholder.</p> <p>This means CSN numbers could be issued at the Party level rather than the Farm Supply Number level. Milk supply, quality and similar matters would continue to be determined on a Farm by Farm basis.</p> <p>Clause 2.5 is being removed to allow Shares to be registered at a Party level – see comments above.</p>
<p>3. CO-OPERATIVE SHARE STANDARD</p> <p>3.1 Obligation of Shareholders to hold a number of Co-operative Shares: Subject to the provisions of this clause 3 each Shareholder supplying Milk to the Company in a Season shall hold a number of Co-operative Shares for that Season:</p> <p>(a) not less than the number of Co-operative Shares (“Minimum Holding”) required under <u>equal to 33% of</u> the Share Standard for that Season; and</p>	<p>This amendment specifies that the Minimum Holding will be 33% of the Share Standard, rather than being equal to the Share Standard (ie 100%).</p>

Amendments to Constitution	Explanatory Notes
<p>(b) not greater than a number of Co-operative Shares (“Maximum Holding”) which is <u>equal to the number of Co-operative Shares</u> derived (subject to clauses 3.2 and 3.3 3.4) by multiplying the number of Co-operative Shares (determined in accordance with the Share Standard for that Season, rounded down (where necessary) to the nearest whole number of Co-operative Shares) that the Shareholder is required to hold under subclause (a) above; by a factor (“Limiting Factor”) specified by the Board from time to time and being not less than one and not more than two <u>four</u>,</p> <p>provided that no Shareholder may at any time hold, or have Relevant Interests in, a number (“Individual Limit”) of Co-operative Shares such that:</p> <p>(c) the total number of Co-operative Shares which the Shareholder holds, or has Relevant Interests in; less</p> <p>(d) the number of Co-operative Shares which that Shareholder is required to hold under clause 3.1(a);</p> <p>exceeds 5% of the total number of Co-operative Shares then on issue in the capital of the Company (excluding any Co-operative Shares which are, at the relevant time, on issue but have been surrendered to, or have been acquired by, the Company, and have not been cancelled).</p>	<p>This amendment increases the maximum number of Shares that a supplying Shareholder may hold to 4x the Share Standard (up from the current 2x). The “Share Standard” remains defined as the number of shares that 100% backs milk supply. Clause 3.4 sets out the shareholding provisions for Associated Shareholders.</p> <p>The Individual Limit is being tightened to cap any individual Shareholder’s total interests in Shares (on a relevant interest basis) at 5%, including wet and dry shares. Currently, it only applies to dry shares.</p>
<p>3.2 Aggregate Threshold: Notwithstanding the provisions of clause 3.1(b), if at any time:</p> <p>(a) the aggregate number of Co-operative Shares then on issue in the capital <u>by of</u> the Company (<u>excluding treasury stock</u>) <u>is greater or lesser than in excess of</u> the <u>aggregate Share Standard for all</u> number of Co-operative Shares required to be held by Shareholders under clause 3.1(a) (irrespective of the period of time within which Shareholders may acquire such Co-operative Shares) exceeds <u>by a factor of more than</u> 15% (“Aggregate Threshold”) of the aggregate number of Co-operative Shares then on issue (excluding any Co-operative Shares which are, at the relevant time, on issue but have been surrendered to, or have been acquired by, the Company, and have not been cancelled); or</p> <p>(b) the Board specifies a Limiting Factor under clause 3.1(b) which is less than the previously operative Limiting Factor,</p>	<p>The Aggregate Threshold will be retained, but with a plus or minus 15% target range for shares on issue relative to overall milk supply. Shares held by the Co-op in itself (known as “treasury stock”) would be excluded from the calculation. The Board will monitor this under a policy and will consult with the Co-operative Council on the terms of that policy – see clause 16.10.</p> <p>The ability for the Board to reduce the Maximum Holding would also be retained. (These provisions only need to deal with reductions, not increases, because increases to the Maximum Holding would not require Shareholders to sell Shares as contemplated in (d) below.)</p>
<p>then the Board:</p> <p>(c) where subclause (a) applies, shall take such steps and do such things, within such timeframes as the Board considers appropriate, to <u>increase or</u> reduce the total number of Co-operative Shares on issue by the Company (<u>excluding treasury stock</u>) to a number which is less than <u>within</u> the Aggregate Threshold; and</p>	<p>As above, the Aggregate Threshold will be retained, but with a plus or minus 15% target range for shares on issue relative to overall milk supply. Shares held by the Co-op in itself (known as “treasury stock”) would be excluded from the calculation.</p>

Amendments to Constitution	Explanatory Notes
<p>(d) where subclause (b) applies, may by notice in writing to any Shareholder who at the relevant time holds Co-operative Shares in excess of the number permitted by the most recently specified Limiting Factor under clause 3.1(b), require such Shareholder to dispose of a number of Co-operative Shares which is in excess of that limit, and the Shareholder must dispose of the relevant Co-operative Shares within a period specified by the Board (not being less than 10 Working Days after the date of the Board's notice), and the provisions of clause 4.3 and (if the Shareholder does not comply with a notice given under clause 4.3(c)) clause 4.4 shall apply.</p>	<p>As above – this provision is still relevant to circumstances where the Board reduces the Maximum Holding factor below 4x supply.</p>
<p>3.3 Interrelationship of limits: Notwithstanding the restrictions in clauses 3.1(b) and 3.2 above,:</p> <p>(a) the Board may from time to time specify a percentage limit which, for such period as the Board may determine, is to apply instead of the Aggregate Threshold referred to in clause 3.2 and any percentage specified under this subclause (a) (“Target Percentage”) shall be deemed to be the Aggregate Threshold unless or until the Board specifies a further Target Percentage under this subclause (a);</p> <p>(b) no Target Percentage specified under subclause (a) shall exceed the Aggregate Threshold specified in clause 3.2; and</p> <p>(c) if at any time the total number of Co-operative Shares on issue by the Company exceeds <u>is outside</u> the Aggregate Threshold:</p> <p>(i) all the number of Co-operative Shares <u>in excess of the Aggregate Threshold (“Extra Shares”)</u> shall remain validly issued;</p> <p>(ii) the rights and powers conferred by <u>Co-operative Shares</u> the Extra Shares shall not be affected; and</p> <p>(iii) no person shall be entitled to take any action (whether against, or in respect of, the Company, any Director, or any Shareholder) in respect of the <u>total number of Co-operative Shares on issue being outside the Aggregate Threshold</u> issue or holding of such Extra Shares, and none of the Company, any Director, nor any Shareholder shall have any liability to any person in respect of the issue or holding of such Extra Shares <u>total number of Co-operative Shares on issue being outside the Aggregate Threshold</u>.</p>	<p>Instead of the Board having discretion to adopt a narrower target range for the Aggregate Threshold under these provisions, the Board would adopt a Risk Management Policy (in consultation with the Co-operative Council), as referred to in clause 16.10, regarding the total number of Shares on issue and the proportion of Shares that are not held by Shareholders that supply Milk to the Co-op (including the proportion of Shares that are held for the Fund).</p> <p>The existing provisions for the situation where the Aggregate Threshold is exceeded would continue to apply. These provisions would also be extended to cover the situation where the number of Shares was below the Aggregate Threshold range.</p>
<p>3.4 Share Standard: Subject to clauses 3.6, 3.9 and 3.10, the Share Standard applicable to a Shareholder for each Season shall be one Co-operative Share for each kilogram of Milksolids obtainable from the Average Quantity of Milk determined by the Board in relation to that Shareholder (excluding Milk supplied on Contract Supply), provided that:</p> <p><u>(a) Shareholders may elect to hold at least the Minimum Holding (if any) applicable to them, rather than holding the full Share Standard;</u></p> <p><u>(b) the Share Standard and Minimum Holding for an Associated Shareholder shall be zero; and</u></p> <p><u>(c) the Associated Shareholder(s) of a Shareholder supplying Milk to the Company may (subject to any limitations in, and otherwise in accordance with, any rules adopted by the Board and applicable from time to time) apply to the Company for approval to acquire and (if approved) hold Co-operative Shares up to an overall maximum number (in aggregate for all that Shareholder’s Associated Shareholders) equal to the Share Standard applicable to that Shareholder in respect of the relevant Farm(s), or any lesser number of Co-operative Shares which may from time to time be permitted or provided for in those rules.</u></p>	<p>The Share Standard of 1 share / 1 kgMS supplied, which has been a feature of our Co-op for many years, remains. However, Shareholders may choose to hold a reduced “Minimum Holding” under clauses 3.1(a) and 3.4(a).</p> <p>Associated Shareholders are not required to hold any Shares. A supplying Shareholder’s Associated Shareholders may apply to hold Shares up to 1x the supplier’s milk supply from the relevant Farm(s) in total, subject to the rules referred to here.</p>

Amendments to Constitution	Explanatory Notes
<p>The Company may, at any time, disclose the number of Co-operative Shares held or permitted to be held by, and/or the Share Standard of, a Shareholder and its Associated Shareholder(s) in respect of the relevant Farm(s), to each of them.</p> <p>(a) the Board may from time to time permit the Share Standard to be satisfied through the holding of both Co-operative Shares and certificates or other instruments issued by (or for) an Authorised Fund in relation to any Co-operative Shares which are, at that time, the subject of Fund Arrangements entered into by the Shareholder under clause 7; and</p> <p>(b) if and to the extent that the Board permits the Share Standard to be satisfied in the manner provided in subclause (a), each reference in this Constitution to:</p> <p>(i) a minimum number or maximum number of Co-operative Shares required to be held, or permitted to be held, by a Shareholder shall (to the extent permitted by the Board) include such certificates or instruments; and</p> <p>(ii) the number of Co-operative Shares held by a Shareholder (including for the purposes of determining voting or other entitlements of that Shareholder) shall, to the extent permitted by the Board, include such certificates and instruments.</p>	<p>The Co-op would have the ability to disclose these key shareholding parameters to the supplying Shareholder and any Associated Shareholder.</p> <p>The deleted subclauses (a) and (b) permitted Vouchers to count towards the Share Standard. This deletion means that all Vouchers would immediately cease to count. Because the Minimum Holding is being reduced to 33% at the same time, no Shareholders would need to buy additional Shares as a result of cancelling Vouchers, but they would lose the votes associated with those Vouchers unless they already hold additional dry Shares or acquire more Shares.</p>
<p>3.5 Average Quantity: Subject to clauses 3.6, 3.9 and 3.10, the Average Quantity shall, in relation to the Farm from which a Shareholder is to supply Milk to the Company, be the quantity determined by the Board as being of the average of:</p> <p>(a) the quantity of Milk supplied by the Shareholder from that Farm to the Company during the Season immediately preceding the Season to which the Share Standard applies;</p> <p>(b) the quantity of Milk supplied by the Shareholder from that Farm to the Company in the Season immediately preceding the Season referred to in subclause (a); and</p> <p>(c) the quantity of Milk supplied by the Shareholder from that Farm to the Company in the Season immediately preceding the Season referred to in subclause (b).</p>	<p>No change – the Share Standard (off which the Minimum Holding and Maximum Holding are calculated) will continue to be determined using a rolling three-Season “Average Quantity” of Milk as calculated under this clause.</p>
<p>3.6 Estimate: Where:</p> <p>(a) a Shareholder has not supplied Milk to the Company in any one or more of the three Seasons immediately preceding the relevant Season; or</p> <p>(b) the Board determines, for any other reason, that the mechanism in clause 3.5 is inappropriate with respect to that Shareholder,</p> <p>the Board may require the Shareholder to provide an estimate of the quantity of Milk which it expects to supply to the Company in the relevant Season and the Board may, having regard to any such estimate provided by the Shareholder, specify a quantity which will be deemed to be the Average Quantity for that Shareholder. The Board’s determination on that issue shall, absent manifest error, be conclusive and binding.</p>	<p>No change – the Board will retain its ability to use an estimate of kgMS supplied for the purposes of the calculation of the “Share Standard” (and hence the “Minimum Holding” and “Maximum Holding”).</p>

Amendments to Constitution	Explanatory Notes
<p>3.7 Reliance on information: In:</p> <ul style="list-style-type: none"> (a) specifying a quantity under clause 3.6; (b) issuing any determination (or re-determination) under clause 3.8; or (c) otherwise exercising its powers under this Constitution, <p>the Board may rely on any information or estimate of supply provided to it by a Shareholder, and the Board may, but shall not be required to, reissue any statement or alter any determination previously made by it in relation to the number of Co-operative Shares which the Shareholder is required, or permitted, to hold under this Constitution where any such information or estimate is subsequently shown to have been inaccurate or has failed to take in to account any particular circumstance or contingency.</p>	<p>No change – the Board will retain its ability to use an estimate of kgMS supplied for the purposes of the calculation of the “Share Standard” (and hence the “Minimum Holding” and “Maximum Holding”).</p>
<p>3.8 Company may re-determine: The Company may at any time during a Season determine, or re-determine, the Minimum Holding and Maximum Holding applicable to a Shareholder for that Season under clauses 3.1(a) or clause 3.1(b) respectively, and any such determination (or re-determination) may differ from the number of Co-operative Shares previously determined as the Minimum Holding or Maximum Holding (as applicable) in relation to that Shareholder. In that case and based on that determination (or re-determination):</p> <ul style="list-style-type: none"> (a) the Board may at any time by notice in writing to the Shareholder require that Shareholder to acquire any additional number of Co-operative Shares that the Board may determine to ensure that the Shareholder holds the Minimum Holding applicable to that Shareholder under clause 3.1(a); (b) the Board may at any time by notice in writing to the Shareholder require that Shareholder to dispose of any number of Co-operative Shares held, or in which it holds Relevant Interests, which the Board may determine to be in excess of the Maximum Holding applicable to that Shareholder under clauses 3.1, 3.2 and 3.3; and (c) if the Board issues a notice under subclauses (a) or (b): <ul style="list-style-type: none"> (i) at any time prior to the Compliance Date in the relevant Season, the Shareholder must acquire, or dispose of, the relevant number of Co-operative Shares (as applicable) in each case not later than the later of that Compliance Date, or the date 20 Working Days after the date of the Board’s notice; and (ii) at any time following the Compliance Date in the relevant Season, the Shareholder must acquire, or dispose of, the relevant number of Co-operative Shares, in each case within a period of 20 Working Days of the date of the Board’s notice. 	<p>No change – the Co-op will retain its ability to redetermine a Shareholder’s Minimum Holding and Maximum Holding.</p>
<p>3.9 New entrants: Where:</p> <ul style="list-style-type: none"> (a) a person applies under clauses 2.1 and 2.2 to commence the supply of Milk to the Company and to become a Shareholder in respect of that supply, and that application is accepted under clause 2.3; (b) a person has supplied Milk to the Company without being required to hold Co-operative Shares, or to hold the number of Co-operative Shares required by to satisfy the Share Standard Minimum Holding, and that person wishes to acquire Co-operative Shares in respect of that supply; or (c) a Shareholder wishes, in relation to a Season, to increase the quantity of Milk which the Shareholder supplies to the Company, as a result of a Material Change, and the Board determines that such increase is material, 	<p>This amendment reflects that the Minimum Holding will no longer be equal to the Share Standard.</p>

Amendments to Constitution	Explanatory Notes
<p>then:</p> <p>(d) in the case of subclauses (b) and (c), the person must, not later than three months before the commencement of the relevant Season, apply to the Company in writing for permission to acquire the relevant Co-operative Shares or to make the Material Change (as applicable). The Board may, in its absolute discretion, decide whether to accept any such application.</p> <p>If the Board gives notice in writing to any person who has applied under subclauses (b) or (c) accepting the relevant application, or where subclause (a) applies:</p> <p>(e) the Board may specify a period (“Transition Period”) in which the Shareholder shall be permitted to achieve compliance with standards for the holding of Co-operative Shares (determined in accordance with this clause 3.9);</p> <p>(f) the Board shall estimate the minimum quantity of Milk which the Shareholder is expected to supply in each Season in that Transition Period, and the Board shall estimate the maximum quantity of Milk which the Shareholder is expected to supply:</p> <p>(i) where subclause (a) above applies, in the Season in which the Shareholder is to commence supply of Milk to the Company;</p> <p>(ii) where subclause (b) above applies, in the Season in which the person becomes a Shareholder in relation to the relevant supply; and</p> <p>(iii) where subclause (c) above applies, in the Season in which the Material Change referred to in that subclause will be completed;</p> <p>(g) the Shareholder must supply Milk to the Company in accordance with clauses 3.12 and 9 throughout the period, and in accordance with the quantities, referred to in subclause (f), in each case unless otherwise determined by the Board and notified to the Shareholder;</p> <p>(h) the Transition Period shall be a period commencing on the date (“Commencement Date”) of acceptance of the relevant application and expiring at the end of the third sixth complete Season after such acceptance but the Board may in its discretion, in relation to any one or more Shareholders, specify a shorter or longer Transition Period;</p> <p>(i) the Shareholder may, immediately on acceptance of such application by the Board, commence the acquisition of any Co-operative Shares which it will be required to hold in relation to the Milk proposed to be supplied by it;</p> <p>(j) the Shareholder must, by each Compliance Date in the Transition Period, acquire a number of Co-operative Shares which is not less than the number (“Transition Minimum”) specified by the Board (having regard to the minimum quantity of Milk specified under subclause (f)) in relation to the relevant Season;</p> <p>(k) the Shareholder may, at any time following acceptance of such application, acquire a maximum number of Co-operative Shares (“Transition Maximum”) which the Board may specify in relation to that Shareholder;</p>	<p>Because the maximum Transition Period is being extended, this requirement for continuous supply would be able to be waived by the Board – eg to comply with restrictions in DIRA on contracting for more than one season.</p> <p>This amendment is to extend the transition period for sharing up to the Minimum Holding (in the ordinary course) from three Seasons to six Seasons, but the Board already has (and retains) a discretion to make this longer or shorter.</p> <p>The reference to “required to hold” will mean the Minimum Holding going forward, rather than the Share Standard – see clauses 3.1(a) and 3.4(a).</p> <p>The Board would specify a Transition Minimum of 1,000 Shares in the first Season, and stepping up progressively after that in equal tranches.</p>

Amendments to Constitution	Explanatory Notes
<p>(l) without limiting subclause (k) above, when the Board specifies a Transition Maximum with respect to any Season in the Transition Period applicable to a Shareholder, it shall do so having regard to the estimated maximum quantity of Milk which the Shareholder is expected to supply under subclause (f), irrespective of (and without being limited by) the Transition Minimum specified by the Board under subclause (j) in relation to that Season; and</p> <p>(m) the Board shall be entitled to determine (or re-determine) in any Season in a Transition Period the Transition Minimum and the Transition Maximum applicable to any such Shareholder in that Season.</p> <p>3.10 Exiting Shareholders: Where:</p> <p>(a) a person wishes to cease to supply Milk to the Company;</p> <p>(b) a person wishes to continue the supply of Milk to the Company but on the basis that it will hold a number of Co-operative Shares which is less than the Share Standard Minimum Holding (whether under clauses 3.21 or 3.22 or otherwise); or</p> <p>(c) a Shareholder wishes, in relation to a Season, to reduce the quantity of Milk which the Shareholder supplies to the Company as a result of a Material Change, and the Board determines that such reduction is material,</p> <p>then, in any such case that person must, not later than three months before the commencement of the Season in which the relevant change will occur, apply in writing to the Company for permission to make that change. Any application under clause 3.10(a) must set out the date on which the Shareholder intends to cease the supply of Milk to the Company. Where a person has not applied to the Company under this clause 3.10 within the required timeframe, the Board may (in accordance with any rules established by the Board from time to time) waive that requirement and treat the person as having submitted such an application. The Board may in its absolute discretion decide whether to accept any such application, subject to the terms of any enactment.</p> <p>The following clauses specify arrangements which apply if the Board gives notice in writing to such person accepting an the relevant application made, or treated as having been made, under this clause (subject also to any rules applicable to Associated Shareholders):</p> <p>(d) the Board may specify a period (“Reduction Period”) in which the Shareholder and any Associated Shareholders shall be required to achieve compliance with modified standards for the holding of Co-operative Shares determined in accordance with this clause 3.10;</p> <p>(e) the Board shall (where applicable) estimate the quantity of Milk which the Shareholder is expected to supply to the Company in each Season in that Reduction Period and the Shareholder must, in accordance with clauses 3.12 and 9, supply Milk to the Company until (where subclause (a) applies) the date specified in the Shareholder’s application as being the date on which the Shareholder intends to cease supply of the Milk to the Company and, where subclauses (b) and (c) apply, throughout the relevant Season and, in all such cases, in accordance with the quantities specified in this subclause (e);</p>	<p>This amendment is to reflect that the “Minimum Holding” is being reduced below 100% of the Share Standard.</p> <p>There is also a minor typographical correction to the existing Constitution in clause 3.10(b).</p> <p>The Board would be able to waive the requirement for three months’ notice of ceasing or reducing supply. This would provide a mechanism for the Board, in specific circumstances, to relax the notice requirement. The basis on which these situations would be assessed would be outlined in the rules referred to here.</p> <p>The clause also specifies arrangements for outgoing Associated Shareholders to share down. These arrangements would operate in conjunction with the separate rules referred to in clause 3.4. This amendment lets the Board specify a Reduction Period for them as well.</p>

Amendments to Constitution	Explanatory Notes
<p>(f) the Reduction Period shall generally be a period commencing on the date (“Reduction Date”):</p> <p>(i) where subclause (a) above applies, which is the start of the Season in which the Shareholder will cease to supply Milk to the Company; and</p> <p>(ii) where subclauses (b) or (c) apply, on which the relevant application is accepted by the Company,</p> <p>and expiring:</p> <p><u>(iii) for any person that was a Shareholder on 9 December 2021, on the later of 31 May 2037 or the end of the tenth complete Season after the applicable Reduction Date;</u></p> <p><u>(iv) for any other Shareholder supplying Milk to the Company, at the end of the third fifth complete Season after the applicable Reduction Date; and</u></p> <p><u>(v) for any Associated Shareholder, at the end of the third complete Season after the applicable Reduction Date,</u></p> <p>but the Board may in its discretion, in relation to any one or more Shareholders, specify a shorter or longer Reduction Period <u>(and may re-determine any Reduction Period that has previously been specified);</u></p> <p>(g) the Shareholder may, immediately on following acceptance of such application by the Board, commence the disposal of any Co-operative Shares which it will be required to dispose of as a result of cessation or reduction in its supply;</p>	<p>This amendment is to extend the maximum reduction period for selling shares from three Seasons to 15 Seasons for existing suppliers as at the vote date, reducing down to 10 Seasons for each complete Season after then that they remain a supplier.</p> <p>Subject to the comments below on the Board’s discretion to specify a shorter or longer Reduction Period:</p> <ul style="list-style-type: none"> • The earliest date on which a current supplier that ceases selling their shares would be the Compliance Date in the Season ending 31 May 2037. • New entrants will have five Seasons to share down. • Associated Shareholders will have three Seasons. <p>The discretion to specify a shorter or longer Reduction Period will be extended so that a new period could be set for any farmer owners who had already ceased, to enable the Board to respond to different circumstances as fairly as possible. Any such re-determination would be binding on any Permitted Transferees as well – see further comments at the end of this clause 3.10. The applicable rules would also provide for these periods to be re-determined for Associated Shareholders.</p> <p>Shareholders that cease supply can start selling shares from the beginning of the next Season, once they are no longer supplying the Co-op.</p>

Amendments to Constitution	Explanatory Notes
<p>(h) the Shareholder and any Associated Shareholder must, by each Compliance Date in the Reduction Period, dispose of a number of Co-operative Shares such that its holding of Co-operative Shares is not more than the number (“Reduction Maximum”) specified by the Board (having regard to the estimated quantity of Milk specified under subclause (e)) in relation to the relevant Season;</p> <p>(i) where subclauses (b) or (c) above apply, the Shareholder must, at each Compliance Date in the Reduction Period, hold a number of Co-operative Shares which is not less than the number (“Reduction Minimum”) specified by the Board in relation to the relevant Season;</p> <p>(j) without limiting subclause (i) above, when the Board specifies a Reduction Minimum with respect to any Season in a Reduction Period applicable to a Shareholder, it may do so irrespective of (and without being limited by) the Reduction Maximum specified by the Board under subclause (h); and</p> <p>(k) the Board shall be entitled to determine (or re-determine) in any Season in a Reduction Period the Reduction Maximum and (where applicable) Reduction Minimum applicable to any such Shareholder in that Season[;]</p> <p><u>(l) notwithstanding subclauses (d) to (k) of this clause 3.10, a Shareholder whose application (or deemed application) under clause 3.10(a) has been accepted by the Board may (subject to any limitations in, and otherwise in accordance with, any rules established by the Board from time to time) transfer Co-operative Shares to one or more persons who have been approved by the Company and who are (and remain) related to or associated with that Shareholder, as determined in accordance with those rules (each a “Permitted Transferee”):</u></p> <p><u>(i) during the first complete Season after the Season in which the Shareholder’s application is accepted; or</u></p> <p><u>(ii) at any other time during the Reduction Period in the event of the death of the Shareholder or of any member of a partnership, direct or indirect shareholder, or trustee of the Shareholder,</u></p> <p><u>and any person or persons to whom Co-operative Shares are transferred in accordance with subclauses (i) or (ii) above must continue to comply with the Reduction Maximum throughout the remaining Reduction Period as if they were the transferring Shareholder (in each case subject to any re-determination in accordance with clauses 3.10(f) and 3.10(k)), but in proportion to the number of the transferor’s Co-operative Shares transferred to them, and must otherwise continue to comply with the rules established by the Board from time to time for Permitted Transferees; and</u></p>	<p>Subclauses (h) – (k) provide for a progressive share down (ie currently 1/3, 1/3, 1/3).</p> <p>As a step down is not intended going forward, the Board would use the existing provisions to set a Reduction Maximum equal to the number of Shares held by the Shareholder when they cease (or any lesser number held during the Reduction Period), and a Reduction Minimum equal to zero (until the final Season, where the Reduction Maximum and Minimum will both be equal to zero, so that any remaining shares must be sold by the relevant Compliance Date).</p> <p>However, the Board would retain its ability to re-determine the Reduction Maximum and Reduction Period, for example if the proportion of shares held by ceased Shareholders became too high.</p> <p>The ability to apply for permission to transfer Shares to a Permitted Transferee is only available to ceased Shareholders that supplied Milk to the Co-op, ie it is not available to Associated Shareholders or other Permitted Transferees. The rules referred to here could restrict transfers to Permitted Transferees if circumstances required that in future.</p> <p>However, for all Shareholders (ie, including Associated Shareholders and Permitted Transferees), Shares may also pass into the Shareholder’s estate on the death of the Shareholder – see clause 31.1.</p> <p>The Board’s discretion to re-determine these matters for ceased Shareholders would extend to their Permitted Transferees as well.</p>

Amendments to Constitution	Explanatory Notes
<p>(m) if at any time the number of Co-operative Shares held by Shareholders whose applications made, or treated as having been made, under clause 3.10(a) have been accepted by the Board, or who are Permitted Transferees of such persons, is greater than 25% of the total number of Co-operative Shares on issue by the Company (excluding treasury stock):</p> <p>(i) the Board shall take such steps and do such things, within such timeframes as the Board considers appropriate, with a view to returning to within that 25% threshold; and</p> <p>(ii) the provisions of clause 3.3 shall apply as if the excess Co-operative Shares above that 25% threshold were Co-operative Shares outside the Aggregate Threshold, as referred to in that clause.</p>	<p>The Board would target a proportion of not more than 25% of total Shares being held by ceased Shareholders or Permitted Transferees. However, the rights of the excess Shares would not be affected, the same as is specified in clause 3.3 (which relates to the Aggregate Threshold) – that clause is cross-referred to here and would also apply in these circumstances.</p> <p>The Board would also adopt a Risk Management Policy (in consultation with the Co-operative Council), as referred to in clause 16.10, regarding the total number of Shares on issue and the proportion of Shares that are not held by Shareholders that supply Milk to the Co-op (including the proportion of Shares that are held for the Fund).</p>
<p>3.11 Compliance in transitional periods: If the provisions of clauses 3.9 or 3.10 apply and, as at any Compliance Date in a Transition Period or Reduction Period applicable under those clauses, a Shareholder is holding a number of Co-operative Shares which is more than the maximum or less than the minimum number of Co-operative Shares which the Shareholder is permitted or required (as applicable) to hold, the provisions of clauses 3.14 to 3.17 inclusive, and clause 4.3 and (if the Shareholder does not comply with a notice given under clause 4.3(c)) clause 4.4 shall apply.</p>	<p>No change – these provisions will continue to apply on the basis of the reduced Minimum Holding.</p>
<p>3.12 Continuous Supply: Where:</p> <p>(a) under clause 3.9, a Shareholder is permitted to achieve compliance with the Share Standard Minimum Holding over a Transition Period specified under that clause, the Shareholder may not, at any time prior to the end of the applicable Transitiona Period, give a notice under clause 3.10(a), that it intends to cease or reduce, nor otherwise cease or reduce, the supply of Milk to the Company (in each case unless otherwise determined by the Board and notified to the Shareholder);</p> <p>(b) under clause 3.10(a), a Shareholder has given a notice that it intends to cease the supply of Milk to the Company on a particular date, the Shareholder must continue to supply Milk to the Company up to that date; and</p> <p>(c) the Board estimates a quantity of Milk to be supplied by a Shareholder under clauses 3.9 or 3.10, the Shareholder must (in accordance with clause 9) supply Milk to the Company throughout the period, and in accordance with quantities, referred to in those clauses.</p>	<p>These provisions will continue to apply, but on the basis of the reduced Minimum Holding rather than the full Share Standard. Because the maximum Transition Period is being extended, this requirement for continuous supply would be able to be waived by the Board – eg to comply with restrictions in DIRA on contracting for more than one season.</p>

Amendments to Constitution	Explanatory Notes
<p>3.13 Measurement Dates: Each Shareholder’s compliance with the requirements of this clause 3 in relation to a Season shall be determined by the Board on or with effect from the first day in that Season (“Measurement Date”) and the Company shall, not later than 20 Working Days after that date, issue to each Shareholder a statement (“Measurement Statement”) setting out such information as the Board may from time to time consider appropriate in relation to the numbers of Co-operative Shares which the Shareholder is required, or permitted, to hold in that Season. Each Measurement Statement shall, absent manifest error, be conclusive and binding. Nothing in this clause 3.13 limits the provisions of clause 3.8.</p>	
<p>3.14 Obligation to comply - Individual Limit: The Individual Limit applies throughout each Season, and applies on each day in the Season. Each Shareholder must give notice in writing to the Company if at any time it becomes aware that the number of Co-operative Shares which it holds, or in which it has Relevant Interests is, or may be, in excess of the Individual Limit. If a Shareholder gives such a notice to the Company or the Company otherwise ascertains at any time that the Shareholder is in breach of the Individual Limit, the Shareholder must, within such period as is determined by the Board (not being less than 10 Working Days), dispose of such number of Co-operative Shares as will result in the number of Co-operative Shares held by that Shareholder, or in which it has Relevant Interests, being reduced to a number of Co-operative Shares which is less than the Individual Limit. If the Shareholder fails to comply with the requirements of this clause 3.14, the provisions of clause 4.3 and (if the Shareholder does not comply with a notice given under clause 4.3(c)) clause 4.4 shall apply.</p>	<p>No change. This provides for monitoring and enforcement of the Individual Limit in accordance with clause 3.1.</p>
<p>3.15 Obligation to comply - other limits: Without limiting clause 3.14, in the period between the Measurement Date and the Compliance Date (specified under clause 3.16) in each Season the Shareholder must, to the extent required:</p> <ul style="list-style-type: none"> (a) dispose of such number of Co-operative Shares as will result in the number of Co-operative Shares held by that Shareholder being not more than the maximum number of Co-operative Shares that the Shareholder is permitted, under this clause 3, to hold in that Season; and (b) acquire such number of Co-operative Shares as will result in the number of Co-operative Shares held by that Shareholder being not less than the minimum number of Co-operative Shares that the Shareholder is required, under this clause 3, to hold in that Season, <p>and all disposals and acquisitions necessary to achieve compliance with this clause 3.15 must be completed by the Compliance Date. In order to give effect to the requirements in this clause 3.15:</p> <ul style="list-style-type: none"> (c) the Shareholder may, if and to the extent that the Company offers such a facility to Shareholders from time to time, either following receipt of a Measurement Statement in relation to any Season, or as a standing instruction to the Company, request that an Independent Agent disposes of, or acquires, such number of Co-operative Shares as the Shareholder is required to dispose of or acquire under subclauses (a) or (b) (as applicable); (d) each request by a Shareholder under subclause (c) shall operate to appoint an Independent Agent as the attorney and agent of the Shareholder, with power to delegate to any director or employee of the Independent Agent, to dispose of or acquire (as applicable) the relevant number of Co-operative Shares; 	<p>No change – these provisions, including the ability to offer Delegated Compliance Trading, will continue to apply on the basis of the reduced Minimum Holding, and will apply (or be available) to Associated Shareholders or Permitted Transferees that hold more than the number of Shares they are permitted to hold.</p>

Amendments to Constitution	Explanatory Notes
<p>(e) any facility provided under subclause (c) shall be established:</p> <ul style="list-style-type: none"> (i) with such Independent Agent as the Company may from time to time select; and (ii) on terms and conditions notified by the Company to Shareholders from time to time, <p>and each request by a Shareholder under subclause (c) shall be processed and acted upon by the Independent Agent in accordance with those terms and conditions; and</p> <p>(f) without limiting the content of those terms and conditions, each such transaction shall be processed on the basis that the Independent Agent shall not be required to obtain any particular price for any Co-operative Shares disposed of, or to pay any particular price for any Co-operative Shares acquired, under such facility, and none of the Company, the Independent Agent, nor their respective directors and employees shall be liable to any person on any basis in relation to any such disposals or acquisitions.</p> <p>If the Shareholder fails to comply with the requirements of this clause 3.15, the provisions of clause 4.3 and (if the Shareholder does not comply with a notice given under clause 4.3(c)) clause 4.4 shall apply.</p>	
<p>3.16 Review of compliance: The Board shall review each Shareholder’s compliance with clause 3.15 on a date (“Compliance Date”) set by the Board and notified to Shareholders prior to the commencement of each Season (such date being not less than 6 months after the Measurement Date). <u>The Board may postpone the Compliance Date by further notice to Shareholders. The</u> and the Board shall, not later than 20 Working Days after that date <u>the Compliance Date</u>, issue to each Shareholder a second statement (“Compliance Statement”) setting out the number of Co-operative Shares held by the Shareholder as at the Compliance Date. The Board’s determination on that issue shall, absent manifest error, be conclusive and binding. Nothing in this clause 3.16 limits the provisions of clause 3.8.</p>	<p>The Board has the reserve power to defer compliance obligations under clause 3.25 of the current Constitution. This amendment is to specifically record that the Compliance Date itself may be postponed as part of such a deferral – eg if an unexpected event occurs that the Board considers merits a change to the Compliance Date.</p>
<p>3.17 Consequences: If the Compliance Statement issued to a Shareholder indicates that, as at the Compliance Date, the Shareholder held:</p> <ul style="list-style-type: none"> (a) a number of Co-operative Shares which is more than the maximum number of Co-operative Shares which the Shareholder is permitted, under this clause 3, to hold in that Season; or (b) a number of Co-operative Shares which is less than the minimum number of Co-operative Shares which the Shareholder is required, under this clause 3, to hold in that Season, <p>the Shareholder shall be deemed to be in breach of this Constitution and an Independent Agent shall automatically and irrevocably (and without the need for any further confirmation by, or notice to, the Shareholder) be appointed to act as the attorney and agent of the Shareholder (with power to delegate to any director or employee of the Independent Agent) to dispose of or acquire (as applicable) such number of Co-operative Shares as will result in the Shareholder holding a number of Co-operative Shares which complies with the limits and requirements in this clause 3, and in any such case the provisions of clause 4.3 and (if the Shareholder does not comply with a notice given under clause 4.3(c)) clause 4.4 shall apply.</p>	
<p>3.18 Information: Each Shareholder shall provide such information as the Board may from time to time require to enable the Board to determine whether the Shareholder holds, or has Relevant Interests in, a number of Co-operative Shares required, or permitted, to be held by that Shareholder under this clause 3.</p>	

Amendments to Constitution	Explanatory Notes
<p>3.19 Declarations: Without limiting clause 3.18, the Board may at any time, by notice in writing to any Shareholder, require that Shareholder to give a statutory declaration (or other disclosure in a form acceptable to the Board) confirming such matters as the Board may require, including whether the Shareholder holds, or has Relevant Interests in, a number of Co-operative Shares which the Shareholder is required, or permitted, to hold or have Relevant Interests in under this clause 3. On receipt of any such notice, the Shareholder must provide such declaration or disclosure to the Board (or as the Board directs), within 10 Working Days of the date of the Board's notice. If the Shareholder fails or refuses to provide such declaration or disclosure in accordance with this clause, the Board shall be entitled to make a determination on the relevant issue on the basis of the information available to it and (without limiting the Company's other rights and remedies) the provisions of clause 4.3 and (if the Shareholder does not comply with a notice given under clause 4.3(c)) clause 4.4 shall apply to compel compliance by the Shareholder with any requirement under this Constitution which the Board determines is applicable to that Shareholder.</p>	
<p>3.20 Split Supply Shareholders: A Shareholder must give not less than 20 Working Days notice in writing prior to the commencement of the relevant Season where it intends to not supply, in that Season, a percentage of the Milk previously supplied by that Shareholder from a Farm (the percentage so notified being called "Diverted Milk Percentage") where that Milk is to be supplied by that Shareholder to another purchaser. In that event the Company may require that Shareholder to reduce the number of Co-operative Shares held by that Shareholder (such that the Shareholder will hold a number of Co-operative Shares not exceeding the Maximum Holding determined by the Board in relation to that Shareholder for the relevant Season, based on the Company's estimate of the quantity of Milk (excluding Milk to be supplied on Contract Supply) which that Shareholder is expected to supply to the Company during that Season). The Diverted Milk Percentage shall not at any time exceed 20% of the total Milk produced in the whole of the applicable Season and in each day of that Season on that Farm. Whether any such notice may be given by any Shareholder, the time for giving any such notice, and the conditions on which it shall be given or accepted and the dates by which the Shareholder must reduce its holding of Co-operative Shares, shall in each case be determined by the Board from time to time in a manner consistent with any applicable enactment.</p>	
<p>3.21 [Not used] Unshared supply: The Board may permit, at its discretion and on such terms as it sees fit, Shareholders to hold fewer Co-operative Shares than required by the Share Standard in a Season, provided that no Shareholder may hold a number of Co-operative Shares which is less than the number of Co-operative Shares required by the Share Standard in a Season by a number of Co-operative Shares which is greater than 20% of the number of Co-operative Shares required by the Share Standard in that Season.</p>	<p>This clause allows shareholding to 80%. It would be superseded by the reduced Minimum Holding, which will give farmers greater flexibility than is provided for in this clause.</p>

Amendments to Constitution	Explanatory Notes
<p>3.22 Contract Supply: Without limiting any other provision of this Constitution, the Board may, at its discretion and on such terms as it sees fit, permit a Shareholder to supply Milk to the Company in a Season on Contract Supply. The aggregate amount of Milksolids obtained from Milk supplied to the Company by Shareholders in a Season on Contract Supply shall not exceed 15% of the total Milksolids obtained from all Milk supplied by Shareholders to the Company in a 12-month period prior to the commencement of that Season selected by the Board. Without limiting the terms which the Board may set for Contract Supply under clause 9.4, the Board:</p> <ul style="list-style-type: none"> (a) shall set, or determine the methodology for setting, the amount to be paid to a Shareholder for Milk supplied to the Company on Contract Supply; (b) may require a Shareholder to hold a number of Co-operative Shares continuously throughout the term of any arrangements for the supply of Milk to the Company by that Shareholder on Contract Supply; and (c) may set different terms under this clause 3.22 as between individual Shareholders. 	<p>“Contract Supply” means supply <i>by a Shareholder</i> without the Milksolids obtainable from that Milk being taken into account for the purposes of the Share Standard for that Season (and hence also not taken into account for the Minimum Holding).</p> <p>Although Share Up Over Time contracts would be phased out (but with all existing contractual entitlements being honoured), this clause does not need to change and the Board would retain a discretion to allow further Contract Supply.</p> <p>MyMilk would also be phased out under the preferred option, but with all existing contractual entitlements being honoured.</p>
<p>3.23 Continuous Shareholding: Notwithstanding that each Shareholder’s compliance with the requirements of this clause 3 (specifying minimum and maximum numbers of Co-operative Shares which Shareholders are required to hold) are intended to be tested on the Measurement Date and the Compliance Date, the Board may from time to time specify a minimum number (“Base Limit”) of Co-operative Shares (which may be expressed numerically, in percentage terms relative to the Share Standard, or otherwise) which a Shareholder is required to hold continuously, throughout the relevant Season provided that:</p> <ul style="list-style-type: none"> (a) the number of Co-operative Shares specified as the Base Limit in respect of a Shareholder shall not exceed the number of Co-operative Shares which the Shareholder would have been required to hold under the Share Standard Minimum Holding; and (b) in setting a Base Limit under this clause the Board must give not less than 20 Working Days prior notice in writing to Shareholders of the introduction of (or any variation to) the Base Limit, and no such Base Limit shall operate retrospectively. <p>If the Board specifies a Base Limit under this clause:</p> <ul style="list-style-type: none"> (c) each Shareholder must hold a number of Co-operative Shares which is not less than the Base Limit on each day, and at all times, during the relevant Season; and (d) the provisions of clause 4.3 and (if the Shareholder does not comply with a notice given under clause 4.3(c)) clause 4.4 shall apply to compel compliance by the Shareholder with the Base Limit. 	<p>These provisions will continue to apply on the basis of the reduced Minimum Holding.</p>

Amendments to Constitution	Explanatory Notes
<p>3.24 Termination: If at any time:</p> <ul style="list-style-type: none"> (a) the Company becomes aware that a Shareholder is a person who the Board is not permitted to admit as a Shareholder in accordance with clause 2.4; or (b) a Shareholder has failed to comply in any material respect with the Terms and Conditions on which that Shareholder supplies Milk to the Company, <p>the Board may give that Shareholder a notice in writing to that effect and:</p> <ul style="list-style-type: none"> (c) the Board may require that Shareholder to cease the supply of Milk to the Company; and (d) the Board may require that Shareholder to dispose of all of the Co-operative Shares which that Shareholder holds, such disposal to be effected within a timeframe specified by the Board (not being less than 10 Working Days). <p>3.25 Extensions etc: The Board may, at its discretion, at any time grant extensions in relation to, or waivers of, dates and time periods for compliance with obligations arising under this clause 3 provided that, in doing so, it treats all Shareholders in similar circumstances equitably.</p> <p>3.26 No application to certain persons: The provisions of clauses 2 and 3 do not apply to any RVP, any Custodian, or any Authorised Fund, and no RVP, Custodian, or Authorised Fund is required to hold Co-operative Shares under this clause 3.</p>	<p>No change. The amendments to clause 2.4 mean that this clause 3.24 will also apply to Associated Shareholders and Permitted Transferees.</p>
<p>4. COMPLIANCE AND REMEDIES</p> <p>4.1 Application of Clause 3 restrictions: The requirements contained in clause 3 relating to the numbers of Co-operative Shares which Shareholders are required, or permitted, to hold (or have Relevant Interests in) are in each case of fundamental importance to the Company. Each Shareholder must comply with, and give effect to, those requirements (and, in the case of Associated Shareholders and Permitted Transferees, the requirements of the rules from time to time applicable to Associated Shareholders and Permitted Transferees), in form and in substance, and each such requirement shall be construed having regard to its purpose and intent.</p> <p>4.2 Ensuring compliance: If at any time the Board determines, in its discretion, that any Shareholder has arranged its affairs or is circumventing, or may be seeking to circumvent, the purpose and/or intent of the restrictions in clause 3 or any applicable rules the Board may, after taking such steps as it considers practicable and available (including but not limited to exercise of the powers in clauses 3.18 and 3.19) declare any such Shareholder to be in breach of the requirements of the Constitution, in which case clause 4.3 and (if the Shareholder does not comply with a notice given under clause 4.3(c)) clause 4.4 shall apply.</p> <p>4.3 Final opportunity to comply: If it is found (whether as a result of information provided under clauses 3.18 and 3.19 or otherwise) that any Shareholder holds (or, where the Individual Limit applies, has Relevant Interests in) a number of Co-operative Shares which is more than the maximum number of Co-operative Shares that the Shareholder is permitted to hold, or is less than the minimum number of Co-operative Shares that the Shareholder is required to hold, in each case under clause 3 then, in any such case:</p> <ul style="list-style-type: none"> (a) all dividends or other Distributions which would otherwise accrue or be payable on or in relation to Co-operative Shares held by the Shareholder (or, where the Individual Limit applies, in which it has Relevant Interests) which are in excess of an applicable limit under clause 3 shall be forfeited by the Shareholder and retained by the Company; 	<p>These provisions will continue to apply on the basis of the reduced Minimum Holding. These mechanisms will also apply to Associated Shareholders and Permitted Transferees that exceed the maximum number of Shares they are permitted to hold.</p>

Amendments to Constitution	Explanatory Notes
<p>(b) no vote may be exercised in relation to any Co-operative Shares held by the Shareholder (or, where the Individual Limit applies, in which it has Relevant Interests), and any purported exercise of any right to vote by such Shareholder may be disallowed by the Company; and</p> <p>(c) the Board may give the Shareholder notice in writing requiring the Shareholder to take all steps (within a period specified by the Board, but not to be less than 10 Working Days after the date of the notice) to reduce or increase (as the case may require) the number of Co-operative Shares which it holds, or, where the Individual Limit applies, in which it has Relevant Interests, to such level as will result in the Shareholder being in compliance with the relevant obligation.</p> <p>4.4 Breach: If the Shareholder fails to comply with a notice given by the Board under clause 4.3(c) within the period specified in the notice given under that clause:</p> <p>(a) an Independent Agent selected by the Board shall automatically and irrevocably (without the need for any further confirmation by, or notice to, the Shareholder) be appointed to act as the attorney and agent of the Shareholder, with power to delegate to any director or employee of the Independent Agent to dispose of or acquire, or procure the disposal or acquisition (either through the RVP or otherwise) of, such number of Co-operative Shares (“Breach Shares”) as will result in the Shareholder being in compliance with the relevant obligation;</p> <p>(b) such disposal or acquisition may be effected by one or more transactions at such time or times as the Independent Agent determines;</p> <p>(c) such disposals or acquisitions shall be effected at the prices for Co-operative Shares prevailing on the Fonterra Shareholders Market at the time(s) and on the date(s) on which the relevant transactions are conducted;</p> <p>(d) none of the Company, the Independent Agent, any RVP, or any of their respective directors or employees, any other third party used to effect any such transaction, nor any other person, shall be under any duty or obligation to obtain (or to pay) any particular price for the Breach Shares, and none of such persons shall be liable to the Shareholder on any basis for, or in relation to, the relevant disposal or acquisition, or for any loss suffered or claimed to have been suffered by the Shareholder as a result of such transaction;</p> <p>(e) the proceeds of disposal of any such Breach Shares, less any or all of the following (which the Board may determine to deduct):</p> <p>(i) any amount payable by the Shareholder under Fund Arrangements entered into with an Authorised Fund; and</p> <p>(ii) all external costs and expenses incurred by the Independent Agent or the Company in connection with the sale, and all fees charged by any Independent Agent, any RVP, or any other third party utilised to effect such disposal,</p> <p>shall be paid to the Shareholder as and when they are available for payment;</p>	<p>These provisions will continue to apply on the basis of the reduced Minimum Holding.</p> <p>In particular, Enforced Compliance Trading will apply if Shareholders (including Associated Shareholders and Permitted Transferees) do not comply with the applicable limits under the Constitution or under any applicable rules.</p>

Amendments to Constitution	Explanatory Notes
<p>(f) where any Co-operative Shares are acquired under the foregoing provisions, an amount equal to any or all (as the Board may determine) of the following:</p> <ul style="list-style-type: none"> (i) the cost of acquisition of the relevant Co-operative Shares; and (ii) all external costs and expenses incurred by the Independent Agent or the Company in connection with the purchase, and all fees charged by any Independent Agent, any RVP, or any other third party utilised to effect such acquisition, <p>shall be charged to the account of the Shareholder with the Company and may be set off and deducted by the Company from any other amount due by the Company to the Shareholder and/or recovered by the Company from the Shareholder as a debt due. A certificate signed by a Director or a delegate of the Board as to the exercise of the powers in this clause 4.4 shall be conclusive evidence of the facts stated therein.</p>	
<p>5. THE FONTERRA SHAREHOLDERS MARKET</p> <p>5.1 Trading Agreement: The Board may cause, or may prior to the date on which this Constitution takes effect have caused, the Company to enter into a Trading Agreement with the Operator. The Board may do such things and take such steps as may be necessary or appropriate to facilitate quotation and trading of Co-operative Shares on the Fonterra Shareholders Market pursuant to any such Trading Agreement, to maintain such quotation and trading and to agree any modified, additional, or replacement arrangements in relation to the Fonterra Shareholders Market as the Board considers appropriate including:</p> <ul style="list-style-type: none"> (a) specifying or agreeing access protocols, rules, and procedures for trading of Co-operative Shares on the Fonterra Shareholders Market; and (b) facilitating compliance by the Company with the Trading Agreement, the Market Rules, and any legislative or regulatory requirements applicable to the Company in relation to the Fonterra Shareholders Market. 	<p>No change – shares will continue to be traded among farmers on the FSM.</p>

Amendments to Constitution	Explanatory Notes
<p>6. REGISTERED VOLUME PROVIDERS</p> <p>6.1 Engagement: The Board may, from time to time and on such terms as it thinks fit, appoint, engage, or authorise one or more persons to:</p> <ul style="list-style-type: none"> (a) provide services intended to enhance the operation and liquidity of the Fonterra Shareholders Market and/or any market for securities issued by any Authorised Fund; and (b) provide such other services as the Company may from time to time require for the purposes referred to in subclause (a), <p>and the Board may terminate the services of, or replace, any such person, or appoint additional persons to perform such roles, at any time. The terms on which any such person is appointed shall be set out in a contract ("RVP Contract"). Any such RVP Contract:</p> <ul style="list-style-type: none"> (c) must contain provisions which reflect, or give effect to, the restrictions contained in clauses 6.4 and 6.5; and (d) subject to subclause (a) above, may be varied, supplemented or replaced at any time. <p>6.2 Custodian: The Board may from time to time and on such terms as it thinks fit require, or permit, some or all of the rights and interests in Co-operative Shares to which an RVP is entitled to be held by a Custodian for the purposes outlined in this clause 6, in which case the Board may require such Custodian to enter into a contract (which is for the benefit of, and is enforceable by, the Company) which contains provisions which reflect, or give effect to, the restrictions contained in clauses 6.4 and 6.5.</p> <p>6.3 No Liability for the Company: Notwithstanding that the Board may appoint, engage, or authorise a person to perform the role of a RVP under clause 6.1, none of the Company, any Director, nor any employee of the Company shall have any liability to any person for, or in connection with, anything done or not done by a RVP or a Custodian, any termination or variation of any RVP Contract, or any termination or variation of any contract with a Custodian.</p> <p>6.4 Restricted capacity: No RVP shall be entitled to hold any Co-operative Shares for any purpose, or in any capacity. If any RVP ceases to perform the role described in the RVP Contract (whether as a result of termination of the relevant RVP Contract or otherwise) the RVP must cause the Custodian to transfer all Co-operative Shares held by it for or on behalf of the RVP (or in which it holds rights or interests for or on behalf of the RVP) to such person or persons as the Board may (by notice in writing to the RVP and the Custodian) direct.</p> <p>6.5 No exercise of voting rights: Each RVP Contract shall contain such mechanisms as the Board thinks fit which prohibit the RVP (and any Custodian) from exercising, Controlling or exerting any influence over any voting rights attached to any Co-operative Shares held by the Custodian (or in which it holds rights or interests) for any RVP from time to time or appointing any proxy or Representative to do so on its behalf. Amendments to Constitution	Explanatory Notes
<p>7. AUTHORISED FUND</p>	<p>No change.</p>
<p>7.1 Authorisation: The Board may, from time to time and on such terms as it thinks fit, authorise any person (“Authorised Fund”) to acquire, hold, or dispose of some or all of the or rights or interests in Co-operative Shares for the purpose set out in clause 1.6 and for that purpose:</p> <p>(a) permit any such Authorised Fund to enter into contracts or arrangements (“Fund Arrangements”) with any person (“Disposing Holder”) holding or controlling Co-operative Shares, and to receive any rights or benefits arising from any such Fund Arrangements at any time. The terms on which any such Authorised Fund is authorised by the Board to perform this role shall be set out in a contract (“Fund Contract”). Any such Fund Contract:</p> <p>(i) must contain provisions which reflect, or give effect to, the restrictions in clauses 7.7 and 7.8; and</p> <p>(ii) subject to subclause (i), may be varied, supplemented or replaced at any time; and</p> <p>(b) require rights or interests in Co-operative Shares to which any such Authorised Fund is entitled to be held by a Custodian, in which case the Board may require that Custodian to enter into a contract (which is for the benefit of, and is enforceable by, the Company) which contains provisions which reflect, or give effect to, the restrictions contained in clauses 7.7 and 7.8.</p>	<p>The cap on the Fund referred to in clause 7.3 below means that no further Shares may be sold into the Fund while that cap is in place.</p> <p>These provisions will otherwise be left in place. They permit (but do not require) the Fund to continue in existence. The Board could in future decide to buy back the Fund, based on circumstances at the time.</p> <p>The new provisions at clause 7.9 prohibit unauthorised new funds from being established, or economic interests in Shares from being transferred by Shareholders to third parties.</p>
<p>7.2 No liability for the Company: Notwithstanding that the Company may authorise a person to perform the role of an Authorised Fund under this clause, none of the Company, any Director, nor any employee of the Company shall have any liability to any person for, or in connection with, anything done or not done by an Authorised Fund, any termination or variation of any Fund Contract, or any termination or variation of a contract with a Custodian.</p>	
<p>7.3 Participation: The Board may from time to time:</p> <p>(a) specify limits on the extent to which any Disposing Holder may:</p> <p>(i) dispose of any Co-operative Shares or rights or interests in Co-operative Shares to or for the benefit of any Authorised Fund; or</p> <p>(ii) enter into any agreement, arrangement or understanding with any person to that effect or for that purpose; and/or</p> <p>(b) approve the terms of any Fund Arrangements proposed to be entered into by an Authorised Fund with Disposing Holders pursuant to clause 7.1,</p> <p>provided that at any time the maximum number of Co-operative Shares in which any Disposing Holder (except an RVP or any Custodian acting on behalf thereof) may dispose of rights or interests to or for the benefit of any Authorised Fund shall not exceed 33% of the minimum number of Co-operative Shares required to be held by the Disposing Holder at that time in accordance with this Constitution.</p>	<p>No change.</p> <p>The current cap on the Fund implemented by the Board in May 2021 pursuant to clause 7.3(a)(i) would continue.</p> <p>The Board would be able to adopt Fund Arrangements to let Shareholders sell Shares into the Fund in an orderly manner, subject to the overall maximum cap in clause 7.5 and the proviso that no Shareholder can sell more than 33% of their Minimum Holding into the Fund.</p>
<p>7.4 Basis: Any limit specified by the Board under clause 7.3(a) may be set by the Board on any basis, by reference to any benchmarks, and incorporating any restrictions (whether expressed numerically, in percentage terms, or otherwise) that the Board determines, and may be re-determined by the Board at any time and from time to time.</p>	

Amendments to Constitution	Explanatory Notes
<p>7.5 Overall limit: The aggregate number of Co-operative Shares which are at any time the subject of Fund Arrangements shall not exceed an amount (“Overall Limit”) equal to 20% 10% of the total number of Co-operative Shares then on issue in the capital of the Company, excluding any Co-operative Shares which are, at the relevant time, on issue but have been surrendered to, or have been acquired by, the Company, and have not been cancelled.</p>	<p>The Overall Limit on the size of the Fund is reduced from 20% to 10% of the Co-operative.</p> <p>The cap on the Fund referred to in clause 7.3 above means that no further Shares may be sold into the Fund while that cap is in place.</p> <p>In addition to this 10% Overall Limit on the Fund, the Board would adopt a Risk Management Policy (in consultation with the Co-operative Council), as referred to in clause 16.10, regarding the total number of Shares on issue and the proportion of Shares that are not held by Shareholders that supply Milk to the Co-op (including the proportion of Shares that are held for the Fund).</p>
<p>7.6 Consequences: If at any time the aggregate number of Co-operative Shares which are the subject of Fund Arrangements exceeds the Overall Limit:</p> <ul style="list-style-type: none"> (a) the Board shall, take such steps and do such things, within such timeframes as the Board considers appropriate, to cause, or to require any Authorised Fund to cause, the number of Co-operative Shares which are the subject of Fund Arrangements to be reduced to a number which is less than the Overall Limit; but (b) all Fund Arrangements entered into in excess of the Overall Limit shall remain valid and enforceable; (c) the rights and powers conferred on Disposing Holders (and on the Authorised Fund) under Fund Arrangements entered into in excess of the Overall Limit shall not be affected; and (d) no person shall be entitled to take any action (whether against, or in respect of, the Company, any Director, any Shareholder, or the Authorised Fund), in respect of the entry into Fund Arrangements in excess of the Overall Limit, and none of the persons referred to in this subclause (d) shall have any liability in respect of the entry into, or continuation of, such Fund Arrangements. 	
<p>7.7 Restricted Capacity: No Authorised Fund shall be entitled to hold any Co-operative Shares for any other purpose, or in any other capacity. If any Authorised Fund ceases to perform the role described in the Fund Contract (whether as a result of termination of the relevant Fund Contract or otherwise) the Authorised Fund must transfer, or cause the Custodian to transfer, all Co-operative Shares or rights or interests which it may, at the relevant time, hold in any Co-operative Shares to such person or persons as the Board (by notice in writing to the Authorised Fund) directs.</p>	

Amendments to Constitution	Explanatory Notes
<p>7.8 No exercise of voting rights: Each Fund Contract shall contain such mechanisms as the Board thinks fit which prohibit the Authorised Fund (and any Custodian) from exercising, Controlling, or exerting any influence over, any voting rights attached to any Co-operative Shares in which it holds rights or interests from time to time, or appointing any proxy or Representative to do so on its behalf. No exercise or purported exercise by any Authorised Fund or any Custodian (or by any person for or on behalf of such parties, whether as proxy, Representative, or otherwise) of any voting rights attached to Co-operative Shares shall be recognised or of any effect.</p>	
<p>7.9 No alienation of economic rights or establishment of unauthorised funds:</p> <p>(a) <u>Notwithstanding the provisions for capping of the size of any Authorised Fund in this clause 7, the Company expects that Shareholders will retain an economic interest in the Company’s financial performance in proportion to their shareholding.</u></p> <p>(b) <u>To give effect to clause 7.9(a) above, the Board may, by notice to any Shareholder, prohibit that Shareholder from entering into or giving effect to, or require that Shareholder to terminate or reverse (or procure the termination or reversal of) any structure, arrangement or understanding to which the Shareholder is a party, or of which it forms a part, if in the Board’s view:</u></p> <p>(i) <u>the structure, arrangement or understanding involves (or is likely to involve) the Shareholder directly or indirectly and whether by one or more transactions, assigning, transferring, or otherwise Disposing of, or conferring Control over, any economic or legal right or interest attaching to, or any benefit derived from or associated with the holding of, Co-operative Shares (including an entitlement to all or part of any Distributions, and the benefit of all or part of any changes in the price or value of Co-operative Shares);</u></p> <p>(ii) <u>the structure, arrangement or understanding is of a kind that the Board determines (in its discretion) involves the giving or receipt of commercial benefits or rights (other than a bona fide arm’s-length security arrangement in favour of a lender or a bona fide Farm holding structure); and</u></p> <p>(iii) <u>a material purpose or effect of the agreement, arrangement or understanding is to provide a mechanism for persons that are not Shareholders to receive or participate in any economic rights in, or arising from, Co-operative Shares.</u></p> <p>(c) <u>Clauses 8.6 and 8.7 of this Constitution apply to any structure, arrangement or understanding to which this clause 7.9 applies, as if references in those clauses to “clause 8.5” were to this clause 7.9. In addition to the consequences in clause 8.6, the Board may withhold any dividends declared or other economic rights in or arising from, Co-operative Shares where a Shareholder has not retained an economic interest in breach of clause 7.9(a).</u></p> <p>(d) <u>No person shall be concerned or shall need to make any inquiry in relation to the exercise of the powers conferred under this clause 7.9, and none of the Company, any Director, nor any employee of the Company shall have any liability to any person for, or in connection with, any step taken by the Board in accordance with this clause 7.9.</u></p>	<p>This new clause is intended to prevent the establishment of unauthorised funds, and prevent economic interests in Shares from being transferred by Shareholders to third parties except in bona fide circumstances. For example, the Board would be able to direct Shareholders, directly or in a blanket/general notice, not to participate in a replacement Fund that was not approved by the Board – eg if an overseas investor sought to buy up interests in Fonterra. See also the expanded definition of “Dispose” in clause 48.1.</p> <p>The effect of new clause 7.9(c) is that the enforcement mechanisms available to protect against alienation of voting rights are also available to protect against alienation of economic rights, and in addition to losing the vote, the shares would also lose any dividends.</p>

Amendments to Constitution	Explanatory Notes
<p>8. SHAREHOLDERS' VOTING ENTITLEMENTS</p>	
<p>8.1 Voting in Person or by Representative: At a meeting of Shareholders where voting is by show of hands or by voice every Shareholder who is supplying Milk to the Company in the current Season and who is present in person or by Representative has one vote.</p> <p>8.2 Number of votes: Subject to clause 8.3 (and except where otherwise provided in this Constitution), on a poll or postal ballot every Shareholder who is supplying Milk to the Company in the current Season has one vote for every 1,000 kilograms of Milksolids obtainable:</p> <p>(a) from Milk supplied by the Shareholder to the Company during the Season preceding the taking of the poll or postal ballot; or</p> <p>(b) if a Shareholder did not supply Milk to the Company during the Season preceding the taking of a poll or postal ballot, from Milk supplied from the Farm during that preceding Season from which the Shareholder is now supplying Milk to the Company,</p> <p>but in either case excluding Milk supplied to the Company on Contract Supply or in accordance with either of clauses 2.3(a)(ii) or 2.7, and excluding any amount of Milk for which the supplier of the Milk does not hold a number of Co-operative Shares in accordance with the Share Standard.</p>	<p>No change. Supplying Shareholders' current voting entitlements will continue, under which Shareholders have the maximum number of votes if they hold shares that back their kgMS supplied on a 1:1 basis (ie, the Share Standard). A Shareholder that holds only the reduced Minimum Holding would have 33% of the number of votes compared to if it held the full Share Standard.</p> <p>Shareholders that supply Milk may appoint an Associated Shareholder as their proxy with respect to some or all of their votes – see clause 8.5. However, any Shares held by Associated Shareholders are “dry”, ie they do not count towards the supplier's voting entitlements, except to the extent permitted under the Co-operative Companies Act.</p>
<p>8.3 Estimated supply: If in a Season the Farm from which a Shareholder is supplying Milk to the Company did not supply Milk to the Company during the Season preceding the taking of a poll or postal ballot then the number of votes shall be based on the Board's reasonable estimation of Milksolids obtainable from the Milk to be supplied by that Shareholder during the Season in which the poll or postal ballot is taken, but excluding Milk supplied to the Company on Contract Supply or in accordance with either of clauses 2.3(a)(ii) or 2.7, and excluding any amount of Milk for which the supplier of the Milk does not hold a number of Co-operative Shares in accordance with the Share Standard.</p>	
<p>8.4 Change in basis of supply: The Company shall, in determining the quantity of Milksolids obtainable from Milk supplied by the Shareholder to the Company for the purposes of clause 8.2, take into account any change in the basis of supply used by the relevant supplier (including but not limited to any cessation or reduction of supply, and any commencement or termination of Contract Supply).</p>	
<p>8.5 Prohibition on assignment or alienation: Subject to any applicable enactment, and except as permitted by the Board from time to time, no Shareholder may, directly or indirectly and whether by one or more transactions:</p> <p>(a) except as permitted under subclause (b), assign, transfer, or otherwise Dispose of, or confer Control over, any right to exercise any vote attaching to any Co-operative Shares held by the Shareholder from time to time; or</p> <p>(b) appoint a proxy or Representative to vote on behalf of the Shareholder at a meeting of Shareholders,</p> <p>to or in favour of any person under, or as a result of, any agreement, arrangement or understanding which, the Board determines (in its discretion):</p> <p>(c) is not, or is inconsistent with, a bona fide appointment of a proxy or Representative; or</p>	<p>No change.</p> <p>See also new clause 7.9, which is intended to prevent the establishment of unauthorised funds, or economic interests in Shares from being transferred by Shareholders to third parties except in bona fide circumstances.</p>

Amendments to Constitution	Explanatory Notes
<p>(d) involves the giving or receipt of commercial benefits or rights (other than by reason of a proxy or Representative being an Associated Shareholder), and in particular no Shareholder may (whether through any arrangement described in this clause or otherwise) cause or allow any RVP, any Authorised Fund, any Custodian, or any other entity which the Board determines is performing a similar role or function, to exercise, Control, or exert influence over, the exercise by any Shareholder of any such vote.</p> <p>8.6 Power to require declaration: The Board may at any time and from time to time, by notice in writing, require any Shareholder to lodge with the Company a statutory declaration (or other disclosure in a form acceptable to the Board) stating whether or not the Shareholder has complied, and is complying, with the restrictions in clause 8.5 (and, for a Permitted Transferee, clause 3.10). On receipt of any such notice the Shareholder must provide such declaration or disclosure to the Board (or as the Board directs) within 10 Working Days of the date of that notice. If the Shareholder fails or refuses to provide such declaration or disclosure in accordance with this clause the Board shall be entitled to make a determination on the relevant issue on the basis of the information available to it and (without limiting the Company's other rights and remedies) the provisions of clause 8.7 shall apply.</p> <p>8.7 Consequences: If the Board at any time determines (whether as a result of a declaration or disclosure under clause 8.6 or otherwise) that any person:</p> <ul style="list-style-type: none"> (a) has entered into or is a party to any agreement, arrangement or understanding of a type prohibited under clause 8.5; (b) is attempting, or has purported, to exercise any vote, or to Control or exert influence over any votes, attached to Co-operative Shares as a result of any such agreement, arrangement or understanding; or (c) is otherwise circumventing, or attempting to circumvent, the purpose and intent of the restrictions contained in clause 8.5, <p>the Board may disallow any votes exercised, or proposed to be exercised, pursuant to any such arrangement, and the Board's determination on that issue shall be conclusive and binding.</p>	<p>Shareholders may appoint Associated Shareholders as their proxies, despite such arrangements involving commercial benefits – but it must still be a bona fide appointment.</p> <p>This enforcement provision will continue to apply, and would also apply to ensuring that Permitted Transferees continue to qualify in accordance with the applicable rules referred to in clause 3.10.</p>
<p>9. TERMS AND CONDITIONS OF SUPPLY OF MILK BY SHAREHOLDERS</p> <p>9.1 Shareholders to supply all Milk to the Company: Except as may otherwise expressly be agreed in writing between a Shareholder and the Company or required pursuant to and on conditions permitted or required by any enactment, and subject to this Constitution, each Shareholder is required to make available for supply to the Company, all Milk produced on each Farm referred to in clause 2.5 and clause 2.6 except for:</p> <ul style="list-style-type: none"> (a) Milk required for the personal use of the Shareholder's family, employees or by a Sharemilker or Contract Milker engaged by the Shareholder on that Farm; (b) Milk required for the raising of calves reared on that Farm; (c) Milk from that Farm which the Company and the Shareholder have expressly agreed in writing is not required for supply to the Company; (d) any Diverted Milk Percentage; and (e) Milk which the Company has agreed need not be supplied from that Farm in accordance with clause 2.6 and clause 2.3(a)(ii). 	<p>Clause 2.5 is being deleted to allow Shares to be registered at a Party level rather than a Farm level.</p> <p>This change is to recognise that Milk may also be retained for personal use by Contract Milklers.</p>

Amendments to Constitution	Explanatory Notes
<p>9.2 Notice may not be given if inconsistent with Terms and Conditions: A notice of intention to cease or reduce the supply of Milk to the Company may not be given by a Shareholder under clause 3.10 if the giving of such notice would be inconsistent with the Terms and Conditions on which that Shareholder supplies Milk to the Company, or would be in breach of a requirement under clause 3, including but not limited to the requirements in clauses 3.9, 3.10, 3.12, 3.20, 3.21 and 3.22.</p> <p>9.3 Terms and Conditions of supply: The Board may fix from time to time such standard Terms and Conditions as it sees fit which shall apply to the supply of Milk by Shareholders to the Company, in cases where special Terms and Conditions do not apply.</p> <p>9.4 Special Terms and Conditions: The Board may fix from time to time special Terms and Conditions for the supply of Milk to the Company by specified Shareholders which reflect the costs and benefits to the Company of the supply of that Milk at different times, of different qualities, at different places and on different commercial terms from other Milk, and/or arrangements for the Contract Supply of Milk under clause 3.22, and/or requirements of the Board under clauses 3.9, 3.10, 3.12; and 3.20 and 3.21.</p> <p>9.5 Terms and Conditions to be notified: The Company shall notify all Shareholders in writing of the standard Terms and Conditions and shall notify Shareholders concerned in writing of special Terms and Conditions fixed by the Board.</p> <p>9.6 Terms and Conditions binding: The standard or special Terms and Conditions shall be binding on the Company and on each Shareholder to whom they apply.</p> <p>9.7 Other Terms and Conditions: The Company may agree such terms for the supply of Milk by suppliers other than Shareholders as it thinks fit.</p>	<p>Clause 3.21 will be redundant and is being deleted – see comments at that clause.</p>
<p>10. PAYMENT FOR MILK SUPPLIED BY SHAREHOLDERS</p>	
<p>10.1 Payment for Milk supplied: After each Season the Board shall determine the payment to be made for Milk supplied by Shareholders during that Season by reference to such components as shall be identified by the Board, including but not limited to such adjustments for Milk volumes or such other factors as the Board determines (including any adjustment the Board considers appropriate for Shareholders permitted under clause 3.21 to that hold fewer Co-operative Shares than required by the Share Standard for that Season). In determining that payment, the Board shall have regard to the income from all activities of the Company, including any dividends received or receivable by the Company and any transfers to or from reserves as the Board, in its absolute discretion, determines are desirable, less the costs of the Company. The costs of the Company include all manufacturing costs, principal repayments, interest and financing costs, and other costs directly attributable to the other activities of the Company.</p> <p>10.2 Determination of Milk Price: The Company shall maintain, in a form approved by the Board from time to time, a manual (“Milk Price Manual”) setting out the policies and methodology for the determination of the Milk Price. The Milk Price Manual must reflect the application of the Milk Price Principles which, for the purposes of this Constitution, are deemed to be included in Part A of this Constitution. The Milk Price must be determined in accordance with the Milk Price Manual.</p>	<p>Shareholders will no longer be “required” to hold Shares equal to the Share Standard.</p> <p>Fonterra already directly pays some Sharemilkers and Contract Milkers part of the milk cheque that would otherwise be payable to the supplying Shareholder. Direct payment arrangements of that kind could continue to be entered into.</p>

Amendments to Constitution	Explanatory Notes
<p>10.3 Milk Price Panel: The Board shall establish and maintain a committee known as the “Milk Price Panel” (“Panel”). The following requirements shall apply to the Panel:</p> <ul style="list-style-type: none"> (a) The Board shall set the terms of reference for the Panel which must provide that, for each Season, the Panel will: <ul style="list-style-type: none"> (i) supervise the calculation of the Milk Price; (ii) advise the Company on the application of the Milk Price Manual; and (iii) recommend to the Board the Milk Price. (b) The Panel may make recommendations to the Board in respect of the Milk Price Manual. (c) The Panel must at all time comply with the following requirements: <ul style="list-style-type: none"> (i) it must comprise five members; (ii) not less than 50% of the members must qualify for appointment as “independent” (“independent”) members (within the meaning of any applicable enactment or, if there is no applicable enactment, as determined by the Board from time to time); (iii) the Shareholders’ Council is entitled to appoint up to two members (at least one of whom must be independent) and the remaining members shall be appointed by the Board; and (iv) the chairman of the Panel must be independent and shall have no casting vote. (d) The Board must identify (and annually disclose) which members it has determined, in its view, to be independent. <p>10.4 Special Terms and Conditions: The payment for Milk supplied under special Terms and Conditions determined pursuant to clause 9.4 may be adjusted by the Board, in accordance with those Terms and Conditions.</p> <p>10.5 Shareholder accounts: The Company shall establish an account in respect of each Shareholder to which the Company shall credit from time to time all amounts payable by the Company to that Shareholder and may debit from time to time all amounts payable by the Shareholder to the Company or any subsidiary of the Company in accordance with the provisions of this Constitution or the Terms and Conditions.</p> <p>10.6 Interim payments: The Board may, in its absolute discretion, and in accordance with the standard or special Terms and Conditions, decide to set and to credit to Shareholders’ accounts interim part payments of the payment to be made for Milk.</p>	<p>Separate proposed changes to this clause to address the requirement for a Ministerial appointee to the Milk Price Panel are the subject of Resolution 6 in the Notice of Meeting for the Annual Meeting.</p>
<p>11. DISTRIBUTIONS</p> <p>11.1 Power to authorise: Subject to the Act and this Constitution the Board may, if satisfied on reasonable grounds that the Company will immediately after the Distribution satisfy the solvency test, authorise Distributions by the Company at times, and of amounts, and to any Shareholders, as it thinks fit and may do everything which is necessary or expedient to give effect to any such Distribution.</p> <p>11.2 Form of Distribution: Subject to the rights of holders of any Shares in a Class and to any enactment, the Board may make a Distribution in such form as it thinks fit, but shall not differentiate between Shareholders in a Class as to the form in which a Distribution is made without the prior approval of the Shareholders.</p>	

Amendments to Constitution	Explanatory Notes
<p>11.3 Method of payment: A Distribution payable in cash may be paid in such manner as the Board thinks fit to the entitled Shareholders or, in the case of joint Shareholders, to the Shareholder named first in the Share Register, or to such other person and in such manner as the Shareholder or joint Shareholders may in writing direct. Any one of two or more joint Shareholders may give a receipt for any payment in respect of the Shares held by them as joint Shareholders.</p> <p>11.4 No interest on Distributions: The Company is not liable to pay interest in respect of any Distribution.</p> <p>11.5 Unclaimed Distributions: Dividends or other monetary Distributions unclaimed for more than one year after the date determined for payment, may be used for the benefit of the Company until claimed. The Board shall nevertheless, at any time after such forfeiture, annul the forfeiture and agree to pay a claimant who produces satisfactory evidence of entitlement.</p>	
<p>12. APPOINTMENT ROTATION AND REMOVAL OF DIRECTORS</p>	
<p>12.1 Number of Directors: There shall be not more than 13 Directors until the conclusion of the 2016 annual meeting of the Company, not more than 12 Directors until the conclusion of the 2017 annual meeting of the Company, and not more than 11 Directors thereafter, of whom:</p> <p>(a) not more than 9 until the conclusion of the 2016 annual meeting, 8 until the conclusion of the 2017 annual meeting, and 7 thereafter, are Directors elected by Shareholders in accordance with clauses 12.2 and 33.4 or appointed by the Board in accordance with clause 33.1; and</p> <p>(b) not more than 4 are Directors appointed by the Board in accordance with clause 12.4.</p> <p>12.2 Election by Shareholders: Subject to clause 12.1, a person may be elected or removed as a Director by a postal ballot of Shareholders held in accordance with the written procedures adopted by the Shareholders' Council from time to time for holding postal ballots by Shareholders for the election or removal of Directors.</p> <p>12.3 Qualifications of Directors: No person shall be elected as a Director by Shareholders or hold office as a Director elected by Shareholders in accordance with clause 12.1(a) unless he or she has a direct or indirect interest in a Shareholder that is supplying Milk to the Company which comprises either:</p> <p>(a) a direct or indirect legal or beneficial interest in that Shareholder (including as a beneficiary of a trust); or</p> <p>(b) a right or entitlement to participate (directly or indirectly) in the distributions of, or made by, that Shareholder,</p> <p>and, without limiting the entities, arrangements or structures through which any such interest may arise or be held, a person will be deemed to hold such an interest if he or she:</p> <p>(c) is a Shareholder that is supplying Milk to the Company; or</p> <p>(d) is a shareholder of a company that is a Shareholder that is supplying Milk to the Company; or</p> <p>(e) is a member of a partnership that is a Shareholder that is supplying Milk to the Company.</p> <p>No person shall take office as a Director unless he or she has signed a Confidentiality Deed and Indemnity in the form determined by the Board relating to information he or she may receive in his or her capacity as a Director.</p>	<p>No change. Associated Shareholders and Permitted Transferees would not acquire any particular eligibility to be elected as directors of Fonterra. The core eligibility requirement is the holding of an interest in a Shareholder "supplying Milk to the Company".</p>

Amendments to Constitution	Explanatory Notes
<p>12.4 Appointment by Board: Subject to clause 12.1, the Board may at any time appoint a person to be a Director for such period, and on such terms, as the Board thinks fit, provided however that the Board may not alter the rights or powers of a Director appointed pursuant to this clause. If the Shareholders do not ratify the appointment of any Director appointed pursuant to this clause by the first annual meeting of the Company following the appointment of that Director then that Director shall cease to hold office at the conclusion of that meeting. If a Director is appointed for a term exceeding three years, then that Director's appointment shall be ratified by Shareholders every three years.</p> <p>12.5 Managing Director: The Board may from time to time appoint one of the Directors appointed by the Board in accordance with clause 12.4 to the office of managing Director for such period, and on such terms, as the Board thinks fit and, subject to the terms of any agreement entered into in any particular case, may revoke such appointment.</p> <p>12.6 Continuation of current directors: The persons who are, at the date on which this Constitution takes effect, the directors of the Company continue in office on the terms on which each such director holds office at such date.</p> <p>12.7 Rotation of Directors: At each annual meeting of the Company one third of the Directors elected by Shareholders pursuant to clause 12.2, or if their number is not a multiple of three then the number nearest to one third, shall retire from office. The Directors to retire shall be those who have been longest in office since their last election. If two or more of those Directors were last elected on the same day, the Directors to retire shall (unless they otherwise agree among themselves) be determined by lot. A retiring Director is eligible for re election. Where the application of this rule would cause an elected Director to serve a term exceeding three years, then that Director must also retire from office.</p>	
<p>13. POWERS OF DIRECTORS</p> <p>13.1 Management of Company: The business and affairs of the Company shall be managed by, or under the direction or supervision of, the Board, provided that the chairperson of the Board shall be a Director elected in accordance with clause 12.2.</p> <p>13.2 Exercise of powers by Board: The Board may exercise all the powers of the Company which are not required either by the Act, the Co-operative Companies Act or this Constitution to be exercised by the Shareholders.</p> <p>13.3 Delegation of powers: The Board may delegate to a committee of Directors, a Director, an employee of the Company, or to any other person, any one or more of its powers, other than a power set out in the second schedule to the Act.</p>

The version of this clause shown here is current as at the date of this Notice of Meeting, ie it does not reflect the separate changes proposed in Resolutions 7 and 8 in the Notice of Meeting for the Annual Meeting.</p>

ANNEXURE 1**MILK PRICE PRINCIPLES**

- The Milk Price for a Season should reflect the benefits that arise from the collective selling power of Shareholders as suppliers to the Company, and from the scale and other economies the Company enjoys in production and sales.
- In this context, the Milk Price should be the maximum amount that the Company, reflecting its status as a properly managed and efficiently run sustainable co-operative, could pay for the Milk supplied to it in a Season if:
 - Shareholders and other suppliers of Milk to the Company collectively contracted to supply all their Milk to the Company;
 - The Company, on their behalf, processed that Milk into commodity products which were sold on freely contested global markets;
 - The Company was appropriately encouraged to make investment, production and sales decisions that maximised the Milk Price, both now and in the future; and
 - The Company was able to earn a risk-adjusted return on the assets required to collect, process and sell that Milk sufficient to warrant long-term investment in the new and replacement assets necessary to collect, process and sell the Milk reasonably expected to be supplied to the Company in future Seasons.
- Risks should be allocated between Milk suppliers and the Company in a manner which appropriately reflects the relative abilities of each party to manage those risks.

Dear Peter

The Government wishes to see a sustainable, efficient, and innovative Fonterra. One that provides opportunities for the next generation of farmers for the benefit of farmers, rural communities and a productive, sustainable, and inclusive New Zealand economy.

This letter follows up on the recent discussions we have had in relation to Fonterra's proposals for a capital restructure. I would like to thank you and your team for running me and the Ministers of Finance and Commerce and Consumer Affairs through your proposals, and for your engagement with officials to date.

I understand the need for Fonterra to change its capital structure to support its revised business strategy. The Government supports Fonterra's continued success as a New Zealand-based, world-class, farmer-owned, dairy processing company. We want to see Fonterra continue to thrive as a New Zealand co-operative and deliver increasing value for the New Zealand economy and for farmers.

Given the size and importance of the dairy industry to the New Zealand economy, a well-performing dairy industry is of significant national interest. The dairy sector's future will depend on farmers and dairy processors maintaining the industry's international competitiveness, improving environmental sustainability, and growing the industry's export earning potential.

A successful and innovative Fonterra is central to a well-functioning dairy industry. Therefore, Fonterra's performance is borne not only by its farmer-shareholders, but also by rural communities and the wider New Zealand economy.

The Dairy Industry Restructuring Act 2001 (DIRA) contains provisions relating to aspects of Fonterra's capital structure to bolster Fonterra's incentives to perform and innovate. Farmers need clear signals about the Co-operative's performance (over and above its ability to pay a high milk price) to enable informed and timely decision-making by farmers about milk supply and land use. It is important that Fonterra continues to win and retain farmers on the merits of its performance.

Fonterra's capital restructuring proposals are predicated on the Government's support for amending the DIRA. The current proposals envisage a legislative change to remove key mechanisms that risk weakening performance incentives on Fonterra. Without alternative measures, I am not yet assured that these proposals would deliver the best long-term outcomes for farmers or the dairy sector as a whole.

I am particularly concerned that the current proposals would create a higher risk of diverging shareholder interests inside the co-operative, between farmers with minimum shareholdings for supply only and those with larger shareholdings held for investment purposes. My concern is that this could result in competing shareholder priorities relating to Fonterra's future direction and strategy.

Having carefully considered the issues at hand, to provide Fonterra shareholders with clarity before the vote, my views are as follows:

- A successful and innovative Fonterra is central to a well-functioning dairy industry. Ensuring that Fonterra operates as a strong, intergenerational, farmer-owned dairy processor is therefore important for the New Zealand dairy industry's future.
- Fonterra's proposals, as they currently stand, are not consistent with the Government's policy objectives and the purpose of the Dairy Industry Restructuring Act.
- At this stage, it would be difficult for the Government to support an amendment to DIRA to facilitate the proposals.
- However, I am prepared to consider an alternative, more balanced proposal from Fonterra which could meet Fonterra's needs and the Government's wider policy objectives for the long-term interests of farmers, the dairy sector, and Fonterra itself.

I encourage you to consider further how Fonterra might reshape its proposals to find better balance. Given the current temporary status of the delinked unit Fund, I also encourage you to seek a timely resolution. It would be of concern if this temporary measure were to be unduly prolonged.

Lastly, I would like to reaffirm the importance the Government places on a mutually acceptable outcome to this process. I would like to thank you again for your ongoing constructive engagement to date with my officials. I am committed to working with you to ensure this necessary work is done as quickly as possible.

Yours sincerely
