

LIVING
WATER

Working towards a
common vision
of dairy and freshwater thriving together

5,823ha

enhanced through protection,
restoration and pest control

ALL

Fonterra farms now have
access to biodiversity
planning through farm
environment plans

Designing & trialling solutions
in five catchments

53%

of farmers implementing
freshwater improvement
activities

(up from 31% in 2016)

54

projects underway
or completed

25

trials of different tools and
solutions which we hope
can be taken to scale to
improve freshwater

Championing change
to mindsets, approaches, systems and aspirations

\$7.5m

extra funding
leveraged through
others via partnerships

39

partnerships in place

\$1.56m

contributed to community
restoration projects
